PERFORMANCE INDICATOR DOCUMENTATION

Program: LSUA

Goals and Objectives:

I. Goal: Increase Opportunities for Student Access and Success

Objective I.1:

Increase fall 14th class day headcount enrollment at LSUA by 1% from the baseline level of 2,675 in fall 2009 to 2,702 by fall 2014.

Indicator Name:

Number of students enrolled in fall (as of 14th day) at LSUA.

Indicator LaPAS PI Code: 15311

Type and Level: Output, Key

Rationale:

Recognition of the importance of Louisiana having an educated citizenry

Use:

Enrollment drives many management decisions. The size of an institution’s enrollment impacts scheduling, hiring, future planning, program demands, facilities management, etc.

Clarity:

Headcount enrollment refers to the actual number of students enrolled (as opposed to fulltime equivalent enrollment (FTE) which is calculated from the number of student credit hours enrolled divided by a fixed number)

Validity, Reliability and Accuracy:

Data will be retrieved from the Board of Regents’ Statewide Student Profile System (SSPS).

Data Source, Collection and Reporting:

SSPS data is gathered twice annually, in the Fall and Spring. For this indicator, Fall data (the national standard) will be used. The indicator will be reported at the end of the third quarter. This will allow time for collection, aggregation, and editing of the data.

Calculation Methodology:

The standard method practiced nationwide for reporting headcount enrollment is as of the 14th class day of the semester (9th class day for quarter systems). The Regents SSPS is a unit record system where each enrolled student, regardless of course load, is counted.
Scope:
This indicator is all enrolled students at LSUA.

Responsible for data collection, analysis, and quality

Each institution submits the SSPS data electronically to the Board of Regents. The Board of Regents performs numerous edits and works with the campuses/systems to correct errors. When all campus submissions are complete, the BOR’s staff builds a master file for SSPS.

Caveats? Limitations or weaknesses? Does the source of the data have a bias or agenda?

No real weaknesses. The reader must understand that this indicator reflects headcount enrollment and is not the enrollment calculation used for funding or reimbursement calculations.

Indicator LaPAS PI Code: New

Type and Level: Output, Key

Rationale:

The postsecondary education system must be committed not only to recruiting and enrolling students, but also to retain them in school, thus preparing them for more productive lives.

Use:

Increased student retention within the Louisiana public postsecondary system contributes to an increase in the number of degree completers and as a consequence leads to a more educated citizenry.

Clarity:

This indicator tracks degree seeking first-time in college students enrolled full-time in credit courses as of the 14th class day of the fall semester. It does not reflect the total retention for the college.

Validity, Reliability and Accuracy:

Data will be retrieved from LSU System campuses and/or from the Board of Regents’ Statewide Student Profile System (SSPS).

SSPS data is gathered twice annually, in the Fall and Spring. For this indicator, Fall data (the national standard) will be used. The indicator will be reported at the end of the third quarter. This will allow time for collection, aggregation, and editing of the data.
**Calculation Methodology:**

This number is calculated using the institutional classified cohort of degree seeking, first-time in college, full-time, students in a given fall which re-enroll the following fall semester at the same institution. The number of students found re-enrolled will be divided by the number of students in the cohort to obtain a retention percentage.
