

# COURSES OF INSTRUCTION

---

## IMPORTANT FACTS REGARDING COURSES

1. All courses of instruction offered by LSUA are listed in this section. This list was up to date and as correct as possible at the time of publication of this catalog. Since the catalog was prepared well in advance of its effective date, some courses may have been added, others may have been dropped, and additional approved changes in content may have been made.
2. Courses that have been approved as *General Education Courses* are designated by the following symbol (◆) placed before the title.
3. No credit will be given for a course unless the student has been duly registered in that course.
4. The amount of credit given for the satisfactory completion of a course is based on the number of lectures or recitations each week for one semester; for example, one credit represents one hour of lecture or recitation a week for one semester. Two to four hours of laboratory work are considered the equivalent of one lecture or recitation hour.
5. When a course consists entirely or partly of laboratory, that fact is stated in the description.
6. The number of credit hours a course carries per semester is listed following the course title. If the amount of credit listed is variable, e.g., "2-4," the amount of credit the student is to receive must be stated at the time of registration. Indication of variable credit does not mean that a course may be repeated for credit. If a course can be repeated for credit, that information is included in the course description.
7. Listing of a course in the catalog does not necessarily mean that it will be offered each year. A schedule of courses to be offered is published annually with updates provided at the beginning of each term. However, LSUA reserves the right to add to, delete from, or modify the class schedule and faculty

assignments as circumstances require.

8. The phrase "also offered as" that appears in some course descriptions, refers to cross-listed courses that are available through more than one department. In each of these instances, only one of the courses may be taken for credit.
9. A student may not continue in a course if the corequisite course is dropped prior to the last day of the midsemester examination period.

## COURSE NUMBERING SYSTEM

- 0001-0999: Offered by LSUA to permit students to make up deficiencies in previous training or to improve their facility in certain basic skills. **Not for Degree Credit.**
- 1000-1999: Primarily for freshmen. Ordinarily open to all students.
- 2000-2999: For sophomore level or above. It is not advisable for a freshman to register for a sophomore-level course unless the student has a 2.50 GPA or a composite ACT score of at least 26, or has placed into the course through an advanced-standing examination. Contact the appropriate department chair for further information.
- 3000-3999: Generally for students of junior level or above. Students below junior level should consult with their advisors prior to registering for one of these courses.
- 4000-4999: For advanced students of junior or senior level. Any student who has accumulated less than 60 hours must have the permission of the department chair from the department that teaches the course prior to registering for one of these courses.
