

## 2014 Impact on K-12 Students Undergraduate Program

In 2014, the State Department of Education was commissioned by CAEP to create a database to track completers of an EPP for a minimum of two years after graduation. In order for a university to be included on these reports, a university must have at least 25 completers teaching in public schools. LSUA is not included in the 2014 report (first year of these reports from the LDOE) because LSUA did not have the minimum of 25 completers (undergraduate and alternate certification programs) teaching in public schools.
