

COURSE DESCRIPTIONS

Accounting (ACCT)

- 2001 Financial Accounting Lec. 3 Lab. 0 Cr. 3**
Prerequisite: MATH 1021. Financial accounting with emphasis on knowledge required for completion of the accounting cycle, including income measurement and financial statement preparation; accounting for current and plant assets, current and long-term liabilities, stockholders' equity, and cash flows.
- 2101 Managerial Accounting Lec. 3 Lab. 0 Cr. 3**
Prerequisite: ACCT 2001. Principles and methods of accounting primarily concerned with data gathering and presentation for purposes of internal management evaluation and decision making.
- 3020 Intermediate Accounting I Lec. 3 Lab. 0 Cr. 3**
Prerequisite: Grade of "C" or above in ACCT 2001 and 2101. Accounting concepts and principles underlying the preparation of financial statements; their application in the measurement and reporting of selected balance sheet items and related revenue and expense recognition.
- 3021 Intermediate Accounting II Lec. 3 Lab. 0 Cr. 3**
Prerequisite: Grade of "C" or above in ACCT 3020. Continuation of ACCT 3020. Accounting for liabilities, income taxes, pensions, leases, stockholders' equity, earnings per share, accounting changes and corrections of errors, and income and balance sheet presentations.

Anthropology (ANTH)

- 1001 ♦ General Anthropology Lec. 3 Lab. 0 Cr. 3**
Origin and evolution of man, the modern races, prehistory of mankind, and linguistic classification.
- 1003 ♦ Culture Growth Lec. 3 Lab. 0 Cr. 3**
Nature of culture; social organization; primitive religion, magic, and arts.
- 4003 Native Americans of Mexico Central and South America Lec. 3 Lab. 0 Cr. 3**
Introduction to the major early cultures of South and Mesoamerica. The course first looks at the earliest occupants of Mexico, Central America, and South America and their development from Archaic cultures into farming societies. Then the focus shifts to the social, political, economic, religious, and architectural foundations of the major

civilizations, including the Olmec, Maya, Toltec, Mixtec, and Aztec and Inca.

Astronomy (ASTR)

- 1101 ♦ The Solar System Lec. 3 Lab. 0 Cr. 3**
A non-technical survey course of the major subject areas of astronomy with emphasis on the fundamental principles of the solar system. This course is open to non-science majors.
- 1102 ♦ Stellar Astronomy Lec. 3 Lab. 0 Cr. 3**
A survey of the stars. Basic topics in spectroscopy, stellar evolution, nuclear reactions in stars and stardeath (white dwarfs - black holes). This course is open to non-science majors.

Biology (BIOL)

- 1001 ♦ General Biology I Lec. 3 Lab. 0 Cr. 3**
An introduction to biological principles including basic biochemistry, cell structure and function, metabolism, genetics, evolution, and ecology. Degree credit will not be given for both BIOL 1001 and BIOL 1201.
- 1002 ♦ General Biology II Lec. 3 Lab. 0 Cr. 3**
Prerequisite: BIOL 1001. A taxonomic survey of living organisms (viruses, bacteria, algae, fungi, higher plants and animals). Includes study of structure and functions of organs and systems with emphasis on advanced plants and vertebrates. Degree credit will not be given for both BIOL 1002 and BIOL 1202.
- 1003 ♦ General Biology Laboratory I Lec. 0 Lab. 2 Cr. 1**
Prerequisite: credit or registration in BIOL 1001. Survey of Plant Kingdom.
- 1004 ♦ General Biology Laboratory II Lec. 0 Lab. 2 Cr. 1**
Prerequisite: credit or registration in BIOL 1002. Survey of Animal Kingdom.
- 1161 Human Anatomy and Physiology I Lec. 3 Lab. 2 Cr. 4**
Prerequisite: Completion or exemption from all developmental courses. Topics include cell structure and function, tissues, integument, skeleton and muscle, chemistry, and biochemistry. Not for degree credit for science majors.
- 1162 Human Anatomy and Physiology II Lec. 3 Lab. 2 Cr. 4**
Pre-requisite: BIOL 1161. Continuation of BIOL 1161. Topics include blood circulation, lymphatic

- system, immunology, respiratory system, urinary system, reproduction, endocrinology, digestion, and nervous system. Not for science majors.
- 1201** ♦ **Biology for Science**
Majors I Lec. 3 Lab. 2 Cr. 4
 Prerequisite: Exemption from or completion of developmental courses. Credit will not be given for both this course and BIOL 1001 and 1003. General concepts in cellular structure, cellular metabolism, cellular communication, evolution, and genetics.
- 1202** ♦ **Biology for Science**
Majors II Lec. 3 Lab. 2 Cr. 4
 Prerequisite: Completion of BIOL 1201 with a "C" or better. Credit will not be given for both this course and BIOL 1002 and 1004. General concepts in ecology and the diversity of life.
- 2011** **Natural History of Louisiana**
Plants and Animals Lec. 2 Lab. 3 Cr. 3
 An introduction to some of Louisiana's natural communities and the plants and animals that inhabit them. The ecology, distribution, identification, and natural history of these organisms will be discussed.
- 2016T** **Rainforest Ecology (Travel Course) Cr. 3**
 An introduction to the moist lowland forest of the American tropics, including: the ecological functions that maintain the ecosystem, biological diversity, adaptations and interrelationships of species, threats to the ecosystem, and possibilities for management. Course will include pre-trip lectures and a one-week field trip to the rainforest of the Peruvian Amazon.
- 2030** ♦ **Introduction to Environmental Science Lec. 3 Lab. 0 Cr. 3**
 Prerequisite: Eligibility for ENGL 1001. The relationship of man as a biological unit to the Earth's ecosystems. A study of the basic laws which govern these ecosystems and ecological problems created by man's modification of the environment. This course is intended as a cultural elective for non-science as well as science majors.
- 2031** **Principles of Wildlife Management Lec. 3 Lab. 0 Cr. 3**
 Wildlife conservation and management; ecology and management of wildlife in relation to the objectives of consumptive and nonconsumptive interest groups.
- 2051** ♦ **General Microbiology Lec. 2 Lab. 4 Cr. 4**
 Prerequisite: General biology and some knowledge of chemistry. A study of the structure and function of microbial cells with emphasis on their relationship to man.
- 2080** **Cell/Molecular Biology Lec. 3 Lab. 0 Cr. 3**
 Prerequisite: BIOL 1201, 1202, CHEM 1202. Living systems at the cellular, subcellular, and molecular levels. Emphasis on molecular control of cellular activity, intermediate metabolism, and energy transformation.
- 2414** **Basic Organic and Biochemistry Lec. 4 Lab. 0 Cr. 4**
 (Also offered as CHEM 2414). Prerequisite: CHEM 1202. A presentation of: 1) the fundamental reaction capabilities of organic molecules and their functional groups, and 2) the basic principles of physiological chemistry with an emphasis on their application to problems encountered in the practice of nursing. Four hours of lecture each week.
- 3040** **Evolution Lec. 3 Lab. 0 Cr. 3**
 Prerequisite: 12 hours in biological sciences. Principles and processes in evolutionary biology.
- 3150** **Animal Physiology Lec. 3 Lab. 3 Cr. 4**
 Prerequisite: BIOL 2080, CHEM 1202. A systems approach covering operations associated with maintaining homeostasis. Major functional mechanisms of animal systems will be covered with emphasis placed on vertebrate animals.
- 3152** **Comparative Anatomy Lec. 3 Lab. 3 Cr. 4**
 Prerequisite: BIOL 1201, 1202. Structure and function in vertebrates as viewed from an evolutionary perspective.
- 3153** **Genetics Lec. 3 Rec. 1 Cr. 4**
 Prerequisite: BIOL 2080. Molecular and Mendelian bases of inheritance. Fundamental laws of heredity applied to all kingdoms.
- 3154** **Development Lec. 3 Lab. 3 Cr. 4**
 Prerequisite: BIOL 2080. Developmental phenomena are approached first by analysis of the molecular and cellular bases of these processes, which are common to the eukaryotes, and secondly by descriptions of selected examples of development, including fungi, protozoa, algae, higher plants, and animals.
- 3160** **Survey of the Plant Kingdom Lec. 3 Lab. 3 Cr. 4**
 Prerequisite: BIOL 1201, 1202. An introduction to the plant kingdom with emphasis on plant cell structure, photosynthesis, cellular respiration, reproduction, heredity, and the evolutionary relationships of representative nonvascular and vascular plants.
- 3161** **Plant Anatomy/Physiology Lec. 3 Lab. 3 Cr. 4**
 Prerequisite: BIOL 3160. A study of the structure, function, and development of the vegetative and

- reproductive organs and the physiology of seed plants.
- 3500 Natural History of the Vertebrates Lec. 2 Lab. 6 Cr. 4**
Prerequisite: BIOL 1201, 1202. Study of the taxonomy, phylogeny, ecology, and life histories of fishes, amphibians, reptiles, birds and mammals. Laboratory will emphasize field and laboratory study of representative Louisiana species.
- 3990 Biological Research (See catalogue description) Cr. 1-3**
Prerequisite: Approval of instructor. Individual, supervised research problems. Students will prepare oral and written presentations of their research.
- 4000 Senior Seminar (See catalogue description) Cr. 1**
Prerequisite: Senior standing required. A capstone course required of all biological sciences majors.
- 4015 Conservation Biology Lec. 3 Lab. 0 Cr. 3**
Prerequisite: BIOL 1201, 1202, (3153 recommended). Application of principles of ecology, evolution, and genetics to conservation. Emphasis on threats to biodiversity and habitats as well as management solutions for these threats.
- 4041 Plant Taxonomy Lec. 2 Lab. 4 Cr. 4**
Prerequisite: BIOL 3160. A study of the classification of nonvascular and vascular plants of the Southeastern United States with emphasis on plants native to Louisiana.
- 4104 Histology Lec. 3 Lab. 3 Cr. 4**
Prerequisite: BIOL 2080. Introduction to the study of tissues.
- 4110 Biochemistry Lec. 3 Lab. 0 Cr. 3**
Prerequisite: CHEM 2262. Structure and function of bio-molecules, properties of enzymes, energy transformations, metabolism, and the regulation of cellular processes and functions.
- 4154 Invertebrate Zoology Lec. 3 Lab. 3 Cr. 4**
Prerequisite: BIOL 2080. Biology of the invertebrates with emphasis on phylogeny, morphology, life history, and ecology.
- 4253 Principles of Ecology Lec. 3 Lab. 3 Cr. 4**
Prerequisite: BIOL 1201, 1202 and STAT 2011. Study of the principles governing the relationships between living organisms and their environment. Includes structure and function of ecosystems, communities and populations as well as discussion of current ecological problems. Laboratory emphasizes measurement, interpretation, and application of ecological data.
- 4999 Topics in Biology Lec. TBA Lab. TBA Cr. 3-4**
Prerequisite: BIOL 2051, 2080. Study of a specific topic in the biological sciences. Topics offered to be determined by recent advances, needs of students, and availability of appropriate faculty.

Business (BUS)

- 1001 Introduction to Business Lec. 3 Lab. 0 Cr. 3**
(Not open to students who have credit for more than 12 semester hours in ACCT/BUS/ECON courses.) A survey course designed to present an overview of the operation of the business firm and acquaint the student with phases of business organizations and operations and guide them in their occupational choice
- 1501 Personal Finance Lec. 3 Lab. 0 Cr. 3**
Applied course in Personal Family Finance Problems. This includes need for borrowing, making many different types of expenditures, making plans for retirement, budgeting of income, insurance, investments, and home ownership.
- 2001 Legal Environment of Business Lec. 3 Lab. 0 Cr. 3**
Studies the relationship between American legal institutions and the business world. Overview of the court system, ethics, torts, contracts, consumer protection, anti-trust, employment, and environmental laws.
- 3030 Advertising Lec. 3 Lab. 0 Cr. 3**
Fundamentals of advertising theory and practice; social and economic role of advertising; functions of advertising in marketing and communication.
- 3200 Principles of Management Lec. 3 Lab. 0 Cr. 3**
Prerequisite: ACCT 2101, ECON 2010 and ECON 2020. Management functions, including planning, organizing, staffing/human resource management, leading/interpersonal influence, and controlling in both domestic and international spheres.
- 3201 Business Law I Lec. 3 Lab. 0 Cr. 3**
A survey of general principles of law in the areas of contracts, intellectual property, sales, torts and Louisiana Civil Law.
- 3202 Business Law II Lec. 3 Lab. 0 Cr. 3**
Prerequisite: BUS 3201. A survey of general principles of law in the areas of negotiable instruments, creditor/debtor rights, agency, business organization and Louisiana Commercial Code.

- 3211 Business and Society Lec. 3 Lab. 0 Cr. 3**
Prerequisite: BUS 3200 and junior standing. Social roles of organizations whose primary function is the accumulation of profits; emphasis on current issues; historical development of business-society relationships.
- 3320 Human Resource Management Lec. 3 Lab. 0 Cr. 3**
Prerequisite: BUS 3200 or consent of instructor. Human resource functions, including planning, recruitment, selection, development, maintenance, and reward of employees; relationships with environment and employee associations.
- 3215 Introduction to Operations Management Lec. 3 Lab. 0 Cr. 3**
Prerequisites: BUS 3200 and MATH 2011. Principles and methodologies concerning productivity and quality of manufacturing and service organizations; production and service systems design; process and capacity design; total quality management; systems for just-in-time and purchasing management; inventory and materials management.
- 3401 Principles of Marketing Lec. 3 Lab. 0 Cr. 3**
Prerequisite: ECON 2020. The field of marketing; marketing environment, functions, and institutional structure at a macro level; marketing strategy and policies at a micro level; problems of cost and productivity; view points of society, consumer, and marketing manager.
- 3411 Consumer Analysis and Behavior Lec. 3 Lab. 0 Cr. 3**
Prerequisite: BUS 3401. Dynamics of consumer markets; their significance to marketing executives; identification and measurement of market segments; analysis of their behavioral patterns as a basis for marketing strategy.
- 3715 Business Finance Lec. 3 Lab. 0 Cr. 3**
Prerequisite: ECON 2020 and ACCT 2101. Finance function within the business enterprise; techniques of financial management, concepts of capital structure and dividend policy, working capital management, capital budgeting, institutional and international environment of the firm.
- 4113 Small Business Management Lec. 3 Lab. 0 Cr. 3**
Prerequisite: BUS 3200, BUS 3401, BUS 3715. A multidisciplinary approach to small business; business startups, accounting, finance, marketing, management, promotion, layout, retail management, location analysis, and international small business.
- 4420 Multinational Management Lec. 3 Lab. 0 Cr. 3**
Prerequisite: BUS 3200. Management concepts and philosophical bases for international management operations; environmental dynamics, multinational business organizations, cultural constraints, organizational structures and processes, and conceptual systems of international operations.
- 4423 Sales Management Lec. 3 Lab. 0 Cr. 3**
Prerequisite: BUS 3401. Principles of sales planning and control; organizing sales planning and control; organizing sales departments, developing territories, motivating sales persons, and controlling sales operations.
- 4440 Marketing on the Internet Lec. 3 Lab. 0 Cr. 3**
Prerequisite: BUS 3401. Appreciation of marketing principles and practices pertaining to the use of the Internet by organizations.
- 4524 Employment Law Lec. 3 Lab. 0 Cr. 3**
Prerequisite: BUS 3200. The study of the regulation of employment, with particular emphasis on wrongful discharge, discrimination, evaluation and regulation of job performance, and sexual harassment.
- 4620 Human Behavior in Organizations Lec. 3 Lab. 0 Cr. 3**
Prerequisite: BUS 3200. Behavioral sciences applied to understanding human dynamics in organizations; focus on individual, interpersonal, group, and intergroup behavior; impact of human behavior on organizational effectiveness.
- 4830 Business Policy Lec. 3 Lab. 0 Cr. 3**
Prerequisite: BUS 3200, BUS 3401, and BUS 3715. (May be taken only during either of the final semesters of course work.) The course will integrate the many facets of the Business Curriculum. The focus is on strategic management.

Chemistry (CHEM)

COREQUISITES: A student may not continue in a course if the corequisite course is dropped prior to the last day of the midsemester examination period.

- 1001 ♦ General Chemistry for Non-Science Majors Lec. 3 Lab. 0 Cr. 3**
Prerequisite: Eligibility for MATH 1021. Credit will not be given for both this course and CHEM 1201. A course in the fundamentals of chemistry. Basic topics in inorganic, organic, and biochemistry.

- 1201 ♦ Basic Chemistry Lec. 3 Lab. 0 Cr. 3**
Prerequisite: Eligibility for MATH 1021. Credit will not be given for both this course and CHEM 1001. A course in the fundamentals of inorganic chemistry, modern chemical theories and principles, quantitative problem solving, energy, reactions and their applications. Students who plan to pursue curricula which require more than one year of college chemistry must take 1201 and 1202.
- 1202 ♦ Basic Chemistry Lec. 3 Lab. 0 Cr. 3**
Prerequisite: CHEM 1201 A continuation of CHEM 1201. Additional theory and quantitative problem solving with emphasis in solution chemistry, equilibrium, kinetics, entropy and free energy.
- 1212 ♦ Basic Chemistry Laboratory Lec. 0 Lab. 6 Cr. 2**
Prerequisite: CHEM 1201. Corequisite: CHEM 1202. A laboratory course in fundamental chemical operations and elementary quantitative techniques.
- 2261 Organic Chemistry Lec. 3 Lab. 0 Cr. 3**
Prerequisite: CHEM 1202 and 1212. Basic organic chemistry including stereochemistry, bonding, nomenclature, reactions, mechanisms, and synthesis.
- 2262 Organic Chemistry Lec. 3 Lab. 0 Cr. 3**
Prerequisite: CHEM 2261. A continuation of CHEM 2261.
- 2361 Organic Chemistry Laboratory I Lec. 0 Lab. 3 Cr. 2**
Pre or Corequisite: CHEM 2261. Basic organic chemistry laboratory. Fundamental concepts and operations of organic chemistry.
- 2362 Organic Chemistry Laboratory II Lec. 0 Lab. 3 Cr. 2**
Pre or Corequisite: CHEM 2262. A continuation of CHEM 2361.
- 2414 Basic Organic and Biochemistry Lec. 4 Lab. 0 Cr. 4**
(Also offered as BIOL 2414). Prerequisite: CHEM 1202. A presentation of: 1) the fundamental reaction capabilities of organic molecules and their functional groups, and 2) the basic principles of physiological chemistry with an emphasis on their application to problems encountered in the practice of nursing. Four hours of lecture each week.

Civil Engineering (CE)

- 2450 Statics Lec. 3 Lab. 0 Cr. 3**
Corequisite: MATH 1552. Vectorial treatment of resultants and equilibrium of force systems, centroids, centers of gravity, fluid statics, friction.

Clinical Laboratory Technician (CLT)

- 1010 Introduction to Clinical Laboratory Science Lec. 3 Lab. 0 Cr. 3**
Prerequisite: BIOL 1161, MATH 1021, CHEM 1201, ENGL 1001 and NURS 1010. An introduction to the clinical laboratory science profession and its organizational structure. The communication process, professional ethics, the legal aspects of laboratory service, lab mathematics, basic quality control processes, lab safety and basic instrumentation are also introduced. The course is open to all students interested in entering the CLT Program or any clinical laboratory science discipline.
- 2110 Clinical Hematology I Lec. 2 Lab. 3 Cr. 3**
Prerequisite: CLT 1010, admittance to the CLT Program, and approval of instructor. A study of the formation, development, morphology, and function of various types of normal/abnormal blood cells, synthesis of hemoglobin, and laboratory diagnosis of anemias. Course includes laboratory practices that support and reinforce these studies.
- 2220 Clinical Hematology II Lec. 2 Lab. 3 Cr. 3**
Prerequisite: CLT 2110 and approval of instructor. A study of the pathophysiology of blood cells, especially the leukocytic line. Coagulation and hemorrhagic disorders will also be studied. Course includes laboratory practices in evaluation of abnormal blood smear and coagulation techniques.
- 2230 Medical Parasitology Lec. 1 Lab. 3 Cr. 2**
Prerequisite: CLT 1010, admittance to the CLT program, and approval of instructor. A study of the morphology, physiology, life cycles, and epidemiology of human pathogenic parasites. Laboratory practices in the identification of these parasites.
- 2240 Clinical Immunology and Serology Lec. 2 Lab. 3 Cr. 3**
Prerequisite: CLT 2110 and approval of instructor. A study of the basic aspects of the immune system and application of the antigen-antibody reaction in various disease states. Laboratory practices pertinent to serological testing of blood and body fluids to support these studies.

- 2250 Clinical Chemistry I Lec. 2 Lab. 3 Cr. 3**
Prerequisite: CLT 1010, CHEM 1201, and approval of instructor. A study of human biochemistry as an aid in the diagnosis of disease process including laboratory applications in body fluid analysis, manual biochemical procedures and instrumentation.
- 2360 Pathogenic Microbiology Lec. 2 Lab. 3 Cr. 3**
Prerequisite: BIOL 2051, CLT 1010, or approval of instructor. A study, characterization and identification of a representative spectrum of those microorganism pathogenic to humans and the study of fungi. Laboratory practices in pathogenic microbial identification and differentiation.
- 2370 Clinical Immunohematology Lec. 2 Lab. 3 Cr. 3**
Prerequisite: CLT 2110; Pre or Corequisite: CLT 2240, and approval of instructor. A study of basic theory and practice of immunohematology. Emphasis will be placed upon blood grouping, typing, and those services supplied by a blood collection and transfusion service.
- 2380 Clinical Chemistry II Lec. 2 Lab. 3 Cr. 3**
Prerequisite: CLT 2250 and approval of instructor. The continuation of the study of human biochemistry as an aid in the diagnosis of disease process including laboratory applications in body fluid analysis, manual biochemical procedures and instrumentation.
- 2410 Practicum I (See Description) Cr. 4**
Prerequisite: All didactic and student laboratory CLT courses. Clinical practice in a clinical affiliate. Emphasis is on developing and applying knowledge and technical skills in blood collection, clinical hematology, and coagulation clinical chemistry, immunohematology, microbiology, urinalysis, and immunology/serology. Minimum of 320 clinical hours.
- 2420 Practicum II (See Description) Cr. 2**
Prerequisite: All didactic and student laboratory CLT courses. This clinical practice is a continuation of CLT 2410. Minimum of 160 clinical hours.
- 2430 Practicum III (See Description) Cr. 3**
Prerequisite: All didactic and student laboratory CLT courses. This clinical practice is a continuation of CLT 2420. Minimum of 240 clinical hours.

Computer Information Systems (CIS)

- 1000 Basic Computer Literacy Lec. 0 Lab. 2 Cr. 1**
A hands-on introduction to the operation and use of the microcomputer. Topics covered will include turning on the computer, using a mouse, interacting with the graphical user interface, word processing, spreadsheet creation, email, and searching the Internet. Not for baccalaureate degree credit.
- 1100 Introduction to Management Information Systems Lec. 3 Lab. 0 Cr. 3**
Management of information, computers, and systems; utilization of management information systems to improve managerial decision making.
- 1200 Information Systems Fundamentals Lec. 3 Lab. 0 Cr. 3**
Systems theory, quality, decision making, and the organizational role of information systems are introduced. Information technology including computing and telecommunications systems are stressed. Concepts of organizations information systems growth, and process improvement are introduced.
- 1250 Programming Lec. 3 Lab. 0 Cr. 3**
Prerequisites: CIS 1100, MATH 1021. This course introduces the concepts of creating projects using objects, decisions, loops and data management in a visual interface environment. It uses the basic concepts of programming, problem solving and programming logic using object oriented, event driven language.
- 2300 Networking Fundamentals Lec. 3 Lab. 0 Cr. 3**
Prerequisite: CIS 1200. This course provides a foundation in current network technologies for local area networks (LANs), side area networks (WANs), and the Internet. It addresses the hardware, software, terminology, components, design, network connections, topologies and protocols.
- 2400 Database Fundamentals Lec. 3 Lab. 0 Cr. 3**
Prerequisite: CIS 1200. This course covers the theory, utilization, design and maintenance of modern database technologies. It focuses on the relational model and includes object-oriented issues. It explores popular DBMS products, in particular Microsoft Access.
- 2402 Database Applications Lec. 3 Lab. 0 Cr. 3**
Prerequisites: MATH 1021 and CIS 1200 and one programming course. Network, hierarchical, and relational models; manipulation languages; relational database design theory.

- 2500 System Administration/ Operating Systems I Lec. 3 Lab. 0 Cr. 3**
Prerequisite: CIS 1200. This course provides a basic understanding of the issues and knowledge needed in performing the function of System Administration. It will stress both the Windows and Unix type operating System.
- 2999 Special Topics in Advanced Microcomputer Applications Lec. 3 Lab. 0 Cr. 3**
Prerequisite: Consent of the instructor. The study and use of selected software packages and/or computer languages available for the microcomputer. May be taken more than once for credit when topic changes.
- 3000 Application Interface Development Lec. 3 Lab. 0 Cr. 3**
Prerequisite: CIS 1100. A study of tools and techniques used in the development of application interface development. The object-oriented and visual programming paradigms as well as current operating systems will be emphasized.
- 3100 Management of Information Resources Lec. 3 Lab. 0 Cr. 3**
Prerequisite: CIS 1100. Information as a resource; issues in information resource management; elements of information systems; development and maintenance of information systems; controlling information resources.
- 3105 Internet Development Tools Lec. 3 Lab. 0 Cr. 3**
Prerequisite: CIS 1100. Understanding of the Internet and its structure for use in business; technologies employed to develop Internet applications; development of business applications for the Internet.
- 3110 Database Processing for Management Lec. 3 Lab. 0 Cr. 3**
Prerequisite: CIS 3100. Structure and function of managerial database; design options and implementation of database management systems in the firm; laboratory practice includes use of a particular software system.
- 3200 Advanced Business Programming Lec. 3 Lab. 0 Cr. 3**
Prerequisite: CIS 1100 or permission of the instructor. Computer programming methods for business systems emphasizing contemporary programming environments and applications development interfaces.
- 3280 Computer Organization Lec. 3 Lab. 0 Cr. 3**
Prerequisite: CIS 3200. Basic digital circuits; Boolean algebra and combinatorial logic, data representation and transfer, and digital arithmetic; digital storage and accessing, control functions, input-output facilities, system organization, features needed for multiprogramming, multiprocessing, and real-time systems.
- 4110 Business Decision Support Systems Lec. 3 Lab. 0 Cr. 3**
Prerequisite: CIS 3110. Laboratory practice includes use of a particular software system. Business decision modeling; constructing a decision support system (DDS); DSS development tools; executive information systems; expert systems (ES) in business.
- 4111 Enterprise Systems Lec. 3 Lab. 0 Cr. 3**
Prerequisite: CIS 3100. Overview of key enterprise systems concepts from functional, technical, and implementation perspective; emphasis on the process-centered organization and how integrated systems are designed to support cross-functional business; hands-on computer based exercises involving a hypothetical global company.
- 4112 Data Warehousing Lec. 3 Lab. 0 Cr. 3**
Prerequisite: CIS 3100. Data Warehouses for business; topics include; top-down design, bottom-up design, data charts, multidimensional data, data mining, web-enabled data warehouse, knowledge management.
- 4120 Business Data Communications and Networking Lec. 3 Lab. 0 Cr. 3**
Prerequisite: CIS 3100. Telecommunications in business, including both voice and data communication, technical details (hardware, software, protocols, network configurations), network management, and security issues.
- 4125 Analysis and Design of Information Systems Lec. 3 Lab. 0 Cr. 3**
Prerequisite: CIS 3110, 3200. Design philosophies and techniques for the creation of information systems for management decision making; conceptual design of actual information systems.
- 4900 Senior Seminar Lec. 3 Lab. 0 Cr. 3**
Prerequisite: Senior standing and consent of the instructor. A seminar with topics presented by students, faculty, and guests. Students will be required to develop and present a semester project.

Criminal Justice (CJ)

- 1107 Introduction to Criminal Justice Lec. 3 Lab. 0 Cr. 3**
Introduction to criminal justice, its historical and philosophical background; its organizations, agencies, and processes, the development of

- modern practices; and its role in a democratic society.
- 2131 Police Process Lec. 3 Lab. 0 Cr. 3**
A study of the role, scope, organization, and management of police agencies.
- 2132 The Judicial Process Lec. 3 Lab. 0 Cr. 3**
Also offered as PRLG 2132. An examination of the role, function, and structure of the courts and their relationship to the criminal justice system.
- 2152 Community Oriented Policing and Problem Solving Lec. 3 Lab. 0 Cr. 3**
A study that blends the concepts of community policing and problem oriented policing into a combined approach to provide quality police service. A proactive philosophy that promotes solving problems that are criminal, affect our quality of life, or increase our fear of crime. Encourages developing strategies to identify, analyze and address community problems at their source.
- 2215 Juvenile Delinquency Lec. 3 Lab. 0 Cr. 3**
A study of the problems of juvenile delinquency with emphasis on theories, preventive programs, juvenile law, courts, treatment, and current problems in the juvenile justice system.
- 2216 Corrections Process Lec. 3 Lab. 0 Cr. 3**
A study of the American correctional process with emphasis on the development of current correctional programs and practices, modern rehabilitative processes, and community-based correctional efforts. Focus is also given to the roles of the correctional system and its interrelation with the other components of the criminal justice system.
- 2265 Criminal Investigation Lec. 3 Lab. 0 Cr. 3**
A course in the aspects of law enforcement investigations, interviews, confessions, use of written notes and statements, case preparations, trial preparation and procedures; police patrol, an analysis of pertinent court decisions and problems, and methods of coping with current emergency situations confronting law enforcement.
- 2275 Criminal Law Lec. 3 Lab. 0 Cr. 3**
Prerequisite: CJ 1107 or consent of instructor. A course in the substantive criminal law that includes definition of law, definition of crime, general principles of criminal responsibility, elements of major crimes, punishments, conditions or circumstances that may excuse from criminal responsibility or mitigate punishment, the court systems of Louisiana and the United States, basic concepts of criminal law with emphasis on the penal law of the State of Louisiana.
- 2999 Internship in Criminal Justice (See Course Description, Cr. 3)**
A structured program of supervised, observation and/or participation in activities of local, state, and/or federal criminal justice agencies. A minimum of 180 clock hours of work are required. Weekly written reports must be submitted. Prerequisites: Open only to criminal justice majors who have completed 12 semester hours credit in criminal justice and have no prior criminal justice work experience. A minimum of a 2.75 grade point average in all criminal justice course work is required. Must have permission of criminal justice instructor or department chair. Must make application for the internship the semester prior to that in which it will be taken.
- 3030 Research Methods in Criminal Justice and Criminology Lec. 3 Lab. 0 Cr. 3**
Prerequisite: CJ 1107. Basic research skills and methodologies will be explored through a thorough examination of the works of the criminal justice researchers and criminologists.
- 3310 Survey of Forensic Science Lec. 3 Lab. 0 Cr. 3**
A study of those fields of basic and applied science which have been specifically adapted to legal proof. Emphasis will be placed on the procedures used to examine both persons and physical evidence and the rules of admissibility applicable to the results of such procedures.
- 3390 Contemporary Issues in Criminal Justice and Criminology Lec. 3 Lab. 0 Cr. 3**
Prerequisite: Must have 15 hours of credit in criminal justice courses. Examination of the literature and analysis of current issues relevant in criminal justice.
- 4018 Constitutional Law and Criminal Justice Lec. 3 Lab. 0 Cr. 3**
Study of constitutional law and its applicability.
- 4029 Administration of Criminal Justice Lec. 3 Lab. 0 Cr. 3**
An examination of principles of organization, administration and functional interrelation of criminal justice agencies. An evaluation of personnel policies, divisions, operations, management procedures and policies, along with evaluations of each agency as part of a system.

Early Childhood Education (ECED)

- 2001 Introduction to Early Childhood Education Lec. 3 Lab. 0 Cr. 3**
An introduction to the history, theories, and developmentally appropriate practices of educating the young child.
- 2002 Curriculum in Early Childhood Education Lec. 3 Lab. 0 Cr. 3**
Planning and development of developmentally appropriate curriculum for the young child. Emphasis on environments, activities, materials and interactions for infants and preschool children.
- 2076 ♦ Child Psychology Lec. 3 Lab. 0 Cr. 3**
(Also offered as PSYC 2076). Prerequisite: PSYC 2000 or 2060 or consent of instructor. Study of the physical, social intellectual, and emotional development of the child.
- 2090 Organizing & Operating Early Childhood Education Programs Lec. 3 Lab. 0 Cr. 3**
The staff's role and responsibility in organizing and operating Early Childhood Education programs, working with parents in both school and home settings, and investigating community resources.
- 2999 Practicum in Early Childhood Education Lec. 0 Lab. 3-9 Cr. 1-3**
Prerequisite: Open only to ECED majors who have completed major requirement courses, (i.e., education, psychology, kinesiology) and have a GPA of at least 2.0. May be taken for a maximum of 3 semester hours of credit. Must have consent of instructor the semester prior to enrolling. A structured program of supervised observation and/or field experience in early childhood education programs.

Economics (ECON)

- 2010 ♦ Principles of Macroeconomics Lec. 3 Lab. 0 Cr. 3**
Prerequisite: MATH 1021. An introductory study of the nature of economics, economic concepts and problems, economic system, and the role of government. Special emphasis is placed upon the accounting, analytical and policy aspects of national income and product and upon the money and banking system.
- 2020 ♦ Principles of Microeconomics Lec. 3 Lab. 0 Cr. 3**
Prerequisite: MATH 1021. A study of basic economics, exploring theories of production, determination of prices in regulated and unregulated industries, functional distribution,

international economics, and problems of economic development.

- 3035 ♦ Money and Banking Lec. 3 Lab. 0 Cr. 3**
Prerequisite: ECON 2010 and 2020. Role of commercial banks, other financial institutions, and the central bank in affecting the performance of the economy; relationships of money and fiscal policy to prices, production, and employment; internal and external effects of U.S. fiscal and monetary policy.
- 4078 American Economic History Lec. 3 Lab. 0 Cr. 3**
Prerequisite: ECON 2010 and 2020. A description and analysis of the principal features of the American economic experience. The colonial relationship with England. The economics of slavery. The industrialization and the urbanization of America. Attention also is given to insight into contemporary problems that can be gained by an examination of our historical experience.
- 4110 Public Finance Lec. 3 Lab. 0 Cr. 3**
Prerequisite: ECON 2010 and 2020. Economic theory applied to the private market and to the public sector; public goods, efficiency, voting, externalities, principles of taxation, benefit-cost analysis, and policy analyses of current issues.
- 4320 Environmental Economics Lec. 3 Lab. 0 Cr. 3**
Prerequisite: ECON 2010 and 2020. Market failure and government failure, benefit cost analysis, the economics of energy, the efficient allocation of pollution, stationary and mobile sources of air pollution, water pollution, and toxic wastes.

Education

Administration and Foundational Services (EDAF)

- 2000 Survey of Education in the United States Lec. 3 Lab. 0 Cr. 3**
Orientation to the historical, sociological, philosophical, psychological and cultural development of the American educational enterprise. EDAF 2000 is not open to education majors. Credit will not be given for both this course and EDCI 1000.

Curriculum and Instruction (EDCI)

- 1000 Introduction to the Study of Education Lec. 3 Lab. 0 Cr. 3**
An introduction to the historical foundations, organization, and administration of American public education. Field experience in multicultural

settings in secondary schools. This course is for secondary education majors only. Credit will not be given for both this course and EDAF 2000.

2025 Foundations and Principles of Teaching in the Elementary School Lec. 2 Lab. 2 Cr. 3

Two hours of lecture and 2 hours field experience in multicultural settings in elementary schools. Open to all students in education and others interested in education.

2030 Teaching, Schooling, and Society in the Elementary School Lec. 2 Lab. 2 Cr. 3

Experiences that join theory to practice; teaching as it operates in elementary school culture; a reflective approach to pedagogy; discussions of teaching in the historical and philosophical dimensions of discourse/practice.

2040 Principles and Practices in Secondary Education Lec. 3 Lab. 0 Cr. 3

Designed to assist prospective secondary teachers in learning how to teach. The course includes principles and practices regarding foundations of methods, planning for teaching, guiding learning, and evaluation of students.

2700 Characteristics of Exceptional

Children Lec. 3 Lab. 0 Cr. 3

Individual differences of various types of exceptional children; characteristics, educational programs, and resources for treatment.

2900 Teaching Computer Literacy in the Elementary and Secondary Schools Lec. 3 Lab. 0 Cr. 3

Prerequisite: Three semester hours in computer science or approval of Coordinator of Education and Physical Education. Emphasis on assisting elementary and secondary teachers with computer concepts, methodology for teaching computer literacy, and suitable software for classroom use.

3000 Children's Literature Lec. 3 Lab. 0 Cr. 3

Survey of Children's literature across time, genres, and media; focus on wide reading in children's literature and an appreciation of the value of literature for children.

3100 Reading, Writing and Oral Communication in Elementary Education Lec. 3 Lab. 6 Cr. 6

Prerequisite: EDCI 2025 or 2030 and cohort membership or consent of instructor. Principles and practices of an effective program in reading, writing, and the oral language arts in lower/upper elementary school.

3114 Classroom Management in the Elementary School Lec. 2 Lab. 2 Cr. 3

Techniques for managing student behavior in the elementary classroom using psychological models,

behavior modification and the arranged environment.

3125 Materials and Methods in Elementary

Science Lec. 2 Lab. 2 Cr. 3

Prerequisite: EDCI 2025 or 2030 or equivalent. Structures of scientific disciplines for teaching in lower/upper elementary school; strategies, techniques, basic rationales, and materials.

3127 Materials and Methods in Elementary

Social Science Lec. 2 Lab. 2 Cr. 3

Prerequisite: EDCI 2025 or 2030. Structures of the social studies disciplines for teaching in the upper/lower elementary school; strategies, techniques, basic rationales, and materials.

3300 Mathematics Instruction in the Elementary

School Lec. 3 Lab. 6 Cr. 6

Prerequisite: MATH 1201 and 1202; EDCI 2030; Structures of mathematical discipline for teaching in lower/upper elementary school; strategies techniques, basic rationales, and materials.

4000 Student Teaching in Elementary

Grades Lec. 0 Lab. 35 Cr. 9

Prerequisite: see "Requirements for Student Teaching" Pass-fail grading.

4100 Assessing and Guiding Classroom Reading

Instruction Lec. 2 Lab. 2 Cr. 3

Prerequisite: EDCI 3100. Additional training in reading instruction beyond that offered in the basic reading course, EDCI 3100, with emphasis on assessment.

4300 Assessing and Guiding Classroom

Mathematics Instruction Lec. 2 Lab. 2 Cr. 3

Prerequisite: EDCI 3300. Additional training in mathematics instruction beyond that offered in the basic mathematics course, EDCI 3300, with emphasis on assessment.

4800 Teaching in the Multicultural

Classroom Lec. 3 Lab. 0 Cr. 3

Strategies and resources for teaching students of cultural diversity in the classroom; development of units and activities of cultural variety.

English (ENGL)

On the basis of a diagnostic test, previous college English (if any), and proficiency in writing, students will be required to take from one to three semesters of freshman composition. The required courses must be taken progressively. **Every student must complete ENGL 1002 which is also prerequisite to all other English courses.** Students who present ACT scores in English which place them in 1002 as the initial course may receive advanced standing credit for ENGL 1001.

- 0001 Developmental English I Lec. 3 Lab. 0 Cr. 3**
Placement: ACT score as specified in the Placement section of the catalog. ENGL 0001 is a skills improvement course that may not be used as credit for a certificate or a degree. It offers an intensive study of basic English composition and grammar with a focus on the sentence and the paragraph. A grade of "C" or higher is required to advance to ENGL 0002.
- 0002 Developmental English II Lec. 3 Lab. 0 Cr. 3**
Placement/Prerequisite: ACT score as specified in the Placement section of the catalog or a grade of "C" or higher in ENGL 0001. ENGL 0002 is a skills improvement course that may not be used as credit for a certificate or a degree. It offers an intensive study of basic English composition and grammar with a focus on the paragraph and the essay. A grade of "C" or higher is required to advance to ENGL 1001.
- 1001 ♦ English Composition Lec. 3 Lab. 0 Cr. 3**
Placement/Prerequisite: ACT score as specified in the Placement section of the catalog or a grade of "C" or higher in ENGL 0002. ENGL 1001 offers an introduction to composition and analysis of the essay and its rhetorical strategies. A grade of "C" or higher is required to advance to ENGL 1002.
- 1002 ♦ English Composition Lec. 3 Lab. 0 Cr. 3**
Prerequisite: ENGL 1001. An introduction to poetry, drama, the short story and the novel and to writing the research paper.
- 1030T Literature Study Tour (Travel Course) Cr. 1**
Travel to selected sites of literary interest; pre-tour activities and post-tour essay. This course may be used as general elective credit only and may be repeated for up to two hours credit when sites and topics change. Students may not exceed two hours credit in any combination of 1030T travel courses. This course may not be taken concurrently with ENGL 2030T
- 2001 Advanced English Composition Lec. 3 Lab. 0 Cr. 3**
Theory and practice of exposition, description, and narration.
- 2002 ♦ Professional Writing Lec. 3 Lab. 0 Cr. 3**
Theory and practice in various types of writing effective documents in the professions with emphasis on composition, rhetorical strategies, discourse and audience analysis, ethical and cultural considerations, and visual design. Writing assignments will include writing effective reports, memos, letters, etc.
- 2005 Introduction to Creative Writing Lec. 3 Lab. 0 Cr. 3**
Forms of creative writing; practice in writing poetry and short fiction.
- 2010 English Grammar Lec. 3 Lab. 0 Cr. 3**
Analysis of the sentence and its parts, and discussion of the bases of good usage; reflects both traditional and modern approaches to grammar; of particular interest to prospective English and elementary education majors.
- 2025 ♦ Introduction to Fiction Lec. 3 Lab. 0 Cr. 3**
Study and appreciation of the short story and the novel.
- 2027 ♦ Introduction to Drama and Poetry Lec. 3 Lab. 0 Cr. 3**
Study and appreciation of these types of literature.
- 2030T Literature Study Tour (Travel Course) Cr. 3**
Travel to selected sites of literary interest; pre-tour lectures, discussions, assigned readings and essays.
- 2148 ♦ Shakespeare Lec. 3 Lab. 0 Cr. 3**
A selection of the major plays.
- 2370 ♦ Major Writers in World Literature Lec. 3 Lab. 0 Cr. 3**
This course will examine classic works in translation from Homer to Cervantes, excluding English and American literature.
- 3001 Writing Professionally in the Arts and Social Sciences Lec. 3 Lab. 0 Cr. 3**
Training in writing skills needed by majors in the arts and social sciences. Course will include both theory and practice in producing proposals, research studies, reports, advertising materials, etc.
- 3002 Business/Technical Writing Lec. 3 Lab. 0 Cr. 3**
Training in skills required of practicing professionals in business and technical fields. Lecture and practical exercises.
- 3020 ♦ British Literature I Lec. 3 Lab. 0 Cr. 3**
A survey of British Literature from the Beginning to 1798.
- 3022 ♦ British Literature II Lec. 3 Lab. 0 Cr. 3**
A survey of British Literature from 1798 to Present.
- 3024 Criticism Lec. 3 Lab. 0 Cr. 3**
Influential works from the classical to the post-modern period, with an emphasis on contemporary theory.
- 3070 ♦ American Literature I Lec. 3 Lab. 0 Cr. 3**
A survey of works by significant writers from the Beginning through the Civil War period.

- 3072** ♦ **American Literature II Lec. 3 Lab. 0 Cr. 3**
A survey of works by significant writers from the Civil War period to the Present.
- 3099** **Special Topics Lec. 3 Lab. 0 Cr. 3**
May be taken for a maximum of 6 hours of credit when topics vary. Consult department for topic to be offered. Examination of a particular literary tradition, genre, theme, or regional literature (e.g., the Gothic, the Pastoral, Literature and Childhood, Louisiana Writers).
- 3220** **Major Themes in Literature Lec. 3 Lab. 0 Cr. 3**
May be taken for a maximum of 6 hours of credit when topics vary. Consult department for topic to be offered. Examination of a particular theme (e.g., the city, education, spiritual crisis, quest) in the works of several authors crossing historical and cultural boundaries.
- 3370** ♦ **Major Writers in World Literature Lec. 3 Lab. 0 Cr. 3**
This course will examine classic works in translation from Homer to Cervantes, excluding English and American Literature.
- 3674** ♦ **Survey of African-American Literature Lec. 3 Lab. 0 Cr. 3**
Survey of African-American literature in the United States from slave narratives to the present.
- 4120** **Studies in Major Authors Lec. 3 Lab. 0 Cr. 3**
May be taken for a maximum of 6 semester hours of credit when topics vary. Consult department for topic to be offered. Detailed study of works by one or two authors from Spenser and Donne to Joyce and Morrison.
- 4148** **Studies in Shakespeare Lec. 3 Lab. 0 Cr. 3**
May be taken for a maximum of 6 semester hours of credit when topics vary. Attention to the plays. Broad Topics such as Tragedy, Comedy, Romance, or History—or some combination; or more narrow Topics such as Shakespeare and the Nature of Things, Cause and Chance in Shakespeare, The Workings of Villainy in Shakespeare, etc.
- 4231** **Studies in Literature and Film Lec. 3 Lab. 0 Cr. 3**
May be taken for a maximum of 6 semester hours of credit when topics vary. Comparative study of literature and film as art forms; literary bases of film; topics such as "Film Authors," "Film and Ideology," Adaptations of Literary Classics," "Film Genres," "Film and Gender."

Fine Arts (FIAR)

- 1001** ♦ **Introduction to Fine Arts Lec. 3 Lab. 0 Cr. 3**
An introduction to the fundamental problems and concepts of art in the fields of design, sculpture, graphics, painting, and ceramics as they relate to the home, community, religion, commerce, and industry. Discussions, lectures, outside readings.
- 1002** ♦ **The Humanism of Arts Lec. 3 Lab. 0 Cr. 3**
The fundamental problems and concepts of art and music as they relate to the formal periods of history in the western world.
- 1011** ♦ **Art Structure Lec. 0 Lab. 6 Cr. 3**
The primary study of the disciplines in art with practice in the various media.
- 1030T** **Fine Arts Study Tour (Travel Course) Cr. 1**
Travel to selected sites of interest in the visual arts; pre-tour activities and post-tour essay. This course may be used as general elective credit only and may be repeated for up to two hours credit when sites and topics change. Students may not exceed two hours credit in any combination of 1030T travel courses. This course may not be taken concurrently with FIAR 2030T.
- 1371** **Introduction to Lithography Lec. 0 Lab. 6 Cr. 3**
Planographic printing from plates in black and white.
- 1551** **Basic Design Lec. 0 Lab. 6 Cr. 3**
Design as a basic problem-solving creative activity; project dealing with mechanical and communicative utility.
- 1661** **Introduction to Ceramics Lec. 0 Lab. 6 Cr. 3**
Studio problems in pottery, glazing, and kiln firing.
- 1662** **Introduction to Ceramics Lec. 0 Lab. 6 Cr. 3**
Prerequisite: FIAR 1661. Problems in ceramic forming techniques; making of clays and glazes; and kiln firing.
- 1761** **Basic Sculpture Lec. 0 Lab. 6 Cr. 3**
A development of three-dimensional structures; exercises and experiments relative to theories and techniques; actual projects using appropriate materials and processes; discussions, lectures, slide talks, and outside reading.
- 1762** **Sculpture II Lec. 0 Lab. 6 Cr. 3**
Studies in sculpture using appropriate materials and processes.

- 1847 Drawing and Composition Lec. 0 Lab. 6 Cr. 3**
Basic principles of observation, with emphasis on the graphic analysis and delineation of spacial structure.
- 1848 Drawing and Composition Lec. 0 Lab. 6 Cr. 3**
Studies from the live model; introduction of graphic representation, structure, and form.
- 1849 Introduction to Painting (See Description) Cr. 3**
Basic studio practice and theory in painting; traditional and modern materials and terminology; value and color experiences involving simple forms in space. Six hours of studio/lecture each week.
- 2030T Fine Arts Study Tour (Travel Course) Cr. 3**
Selected sites and topics. Introductory lectures, travel, discussions, and reports. This course is designed to provide students with an introduction to the great works of art through study and travel to museums. Specific works to be studied will correspond to holdings of museums visited.
- 2271 Art Education for Elementary Schools Lec. 2 Lab. 2 Cr. 3**
A critical analysis and evaluation of past and present concepts of art education with a view toward developing a functional art program for the elementary schools of Louisiana. Art materials, techniques, and art activities recommended for use in the elementary school grades. Readings, discussions, and studio activities.
- 2272 Art Education for Elementary Schools Lec. 2 Lab. 2 Cr. 3**
Prerequisite: FIAR 2271. A critical analysis and evaluation of past and present concepts of art education with a view toward developing a functional art program for the elementary schools of Louisiana. Art materials, techniques, and art activities recommended for use in the elementary school grades. Readings, discussions, and studio activities.
- 2440 ♦ Historical Survey of the Arts Lec. 3 Lab. 0 Cr. 3**
Prehistoric, Near-Eastern. Greek, Roman, and Medieval art.
- 2441 ♦ Historical Survey of the Arts Lec. 3 Lab. 0 Cr. 3**
Renaissance to modern art.
- 2470 ♦ Survey of 20th Century Art Lec. 3 Lab. 0 Cr. 3**
Modern Art.
- 2552 Color Design Lec. 0 Lab. 6 Cr. 3**
Color as a functional design element of perception and visual communication.
- 2655 Basic Jewelry/ Metalsmithing Lec. 0 Lab. 6 Cr. 3**
Piercing, construction, cold connection, soldering, forming, and stone setting; studio problems in bronze, copper, and sterling silver.
- 2661 Intermediate Ceramics Lec. 0 Lab. 6-12 Cr. 3-6**
Prerequisite: FIAR 1662. May be repeated for credit for a maximum of 9 sem. hrs. Studio problems in ceramics; formulation of clay bodies and glazes; theories of kiln operation and maintenance.
- 2879 Intermediate Drawing and Composition Lec. 0 Lab. 6 Cr. 3**
Prerequisite: FIAR 1848. Emphasis on imaginative composition utilizing the figure, still life, and landscape forms.
- 2881 Painting Lec. 0 Lab. 6 Cr. 3**
Prerequisite: FIAR 1847 and 1848. Studio problems in still life directed toward conceptual attitudes; analysis of structure and color in composition; individual criticism, class discussion.
- 2882 Painting Lec. 0 Lab. 6 Cr. 3**
Prerequisite: FIAR 1847 and 1848 and 2881. Studio approaches to abstraction; thematic problems based on the figure and nature forms; synthesizing form and experience; individual criticism, class discussion.
- 2995 ♦ Basic Photography Lec. 0 Lab. 6 Cr. 3**
Basic photographic concepts and techniques. Practical and expressive application of photographic processes to the visual arts. Lectures, classroom critiques, studio work, outside research.
- 2996 ♦ Intermediate Photography Lec. 0 Lab. 6 Cr. 3**
Prerequisite: FIAR 2995. A combination of experimental darkroom lab techniques; continuing development of black and white photography, with emphasis on creative image orientation.

French (FREN)

Students whose curricula require foreign language are urged to schedule a foreign language each semester until the appropriate credit has been earned. Students who select for study a foreign language in which they have some high school credit may take a placement test in that language and be registered at the course level appropriate to their score on the test (regardless of the amount of credit

earned in high school). Credits, up to a maximum of 14 semester hours, may be earned by placement test and posted immediately. For placement purposes, the test is valid for two years. Advanced-standing credit for any course above 2102 must be established by credit examination.

It is recommended that students with foreign language credits earned at another college take the placement test for guidance in scheduling. In the absence of test scores, students with 1-2 semester hours of transfer credit should enter course 1001, 3-7 semester hours enter course 1002, 8-11 semester hours enter course 2102, and 12-14 semester hours enter course 2155.

1001 ♦ **Elementary French I** **Lec. 4 Lab. 0 Cr. 4**
Basic lexicon and structures of French. Emphasis on communicative language use.

1002 ♦ **Elementary French II** **Lec. 4 Lab. 0 Cr. 4**
Prerequisite: completion/credit of FREN 1001. Basic lexicon and structures of French. Emphasis on communicative language use.

2101 ♦ **Intermediate French I** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: completion/credit of FREN 1002. Continuation of Elementary French; structures and lexicon of French. Additional emphasis on reading and writing. Supplementary work in language laboratory.

2102 ♦ **Intermediate French II** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: completion/credit of FREN 2101. Continuation of Elementary French; structures and lexicon of French. Additional emphasis on reading and writing. Supplementary work in language laboratory.

2155 ♦ **Readings in French Literature** **Lec. 3 Lab. 0 Cr. 3**
Readings in contemporary French prose. Special emphasis on comprehension as well as oral and written expression in the language.

2067 ♦ **Culture and Civilization** **Lec. 3 Lab. 0 Cr. 3**
(A four week course with 45 contact hours.) Extensive study of the culture and the civilization of one of the countries where the target language is spoken. Specifically designed for teacher certification for teaching of French in elementary school.

Geography (GEOG)

1001 ♦ **Human Geography** **Lec. 3 Lab. 0 Cr. 3**
Courses need not be taken in numerical order. The earth's surface from the standpoint of its physical and cultural regions. Emphasis on the relationship between culture and the physical

environment, the distribution of people and their use of the land.

1003 ♦ **Human Geography** **Lec. 3 Lab. 0 Cr. 3**
Courses need not be taken in numerical order. The earth's surface from the standpoint of its physical and cultural regions. Emphasis on the relationship between culture and the physical environment, the distribution of people and their use of the land.

2001 ♦ **Principles of Physical Geography** **Lec. 3 Lab. 0 Cr. 3**
Earth and solar system; bases of natural regionalism; weather and climate; landforms; hydrography; vegetation; soils, minerals.

4030 ♦ **Geography of Latin America** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: GEOG 1001. Physical and cultural geography of Central, South America, and Caribbean with emphasis on social, economic, and political development.

4050 ♦ **Historical Geography of the South** **Lec. 3 Lab. 0 Cr. 3**
Physical and cultural geography of the southern U.S. with emphasis on geographical elements identified with the South; historical development, environment, economy, and culture.

4055 ♦ **Geography of Europe** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: GEOG 1001. Physical and cultural geography of Europe with emphasis on the environment, historical, development, economies, and cultures.

4070 ♦ **Geography of Exploration** **Lec. 3 Lab. 0 Cr. 3**
Examination of travels, discoveries, cartography, and cultural encounters since the 15th century with emphasis on European exploration of the Americas, Africa, and Asia.

Geology (GEOL)

1001 ♦ **General Geology: Physical** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: Eligibility for MATH 1021. Earth materials and land forms; processes at work on and within the earth.

1003 ♦ **General Geology: Historical** **Lec. 3 Lab. 0 Cr. 3**
A study of the origin, constitution, structure, and history of the earth, including the forces and events that have affected and continue to affect its development and the history of living things as recorded in sedimentary environments.

Health Sciences (HESC)

- 1002 Basic Electrocardiology Lec. 3 Lab. 0 Cr. 3**
Prerequisites: Eligible for enrollment in MATH 0002 or higher. This course provides a complete introduction to the principles and techniques involved in electrocardiography. The major concepts included are cardiac anatomy and electrophysiology, arrhythmias, cardiac medications, treatments, and diagnostic testing.
- 1003 Introduction to the Health Care System Lec. 1 Lab. 0 Cr. 1**
(Also offered as NURS 1001). This course is designed to introduce persons with an interest in health care delivery to the health care system. The information in this course will focus on the history of health care. Other areas of interest are the financial aspects of health care, providers of health care, legal and ethical issues of health care, and health care as a profession. Recommended for pre-nursing students and other students interested in health care delivery.
- 1004 Client Care Interactions Lec. 2 Lab. 0 Cr. 2**
Prerequisite: Eligibility for ENGL 1001. This course provides for the study of concepts in client care interactions. The use of communication skills with patients, families, and health team members is stressed. Emphasis is placed on the care giver development of skills to promote positive relationships with clients across the life span.
- 1005 Phlebotomy Lec. 3 Lab. 12 Cr. 7**
Prerequisite: Exemption from or successful completion of REA 0005. The Phlebotomy course is designed to prepare a clinical practitioner whose primary function is to obtain, process, and transport blood specimens. Emphasis is on venipuncture and micro-collection techniques. Infection control, safety, total quality management, departmental management, medical-legal issues, and professionalism are included to prepare the student to assume the role of the phlebotomist in the medical laboratory. Supervised clinical phlebotomy experience is provided in a variety of health care settings.
Upon satisfactory completion of the course, the student is qualified to participate in national examinations for phlebotomy certification.
- 1006 Medical Coding I Lec. 3 Lab. 0 Cr. 3**
Pre or Corequisite: HESC 1400. This course is designed to provide an overview of CPT and ICD-9-CM coding systems. Emphasis will be placed on the in-depth understanding of ICD-9-CM coding and classification systems in order to assign valid diagnostic and/or procedure codes. Integrated throughout the course will be the development of use of practical situations and critical decision making skills imperative to the professional medical coder.
- 1007 Medical Coding II Lec. 3 Lab. 0 Cr. 3**
Pre-requisites: HESC 1400 and HESC 1006. This course provides an overview fo CPT and ICD-9-CM coding system for procedures in ambulatory care. Emphasis is on development skills needed for completion of the procedure coding for medical billing forms prepared in physician offices, medical-surgical clinics, and other ambulatory facilities. Basic coding rules, regulations, use of symbols, abbreviations, conventions, and guidelines for performance of diagnosis and procedure coding are explored.
- 1008 Medical Coding III Lec. 2 Lab 3 Cr. 3**
Prerequisites: HESC 1006, HESC 1007, and HESC 1400, Pre or Corequisites: HESC 1003, HESC 1004. This course is designed to assist students in developing and understanding advanced CPT and ICD-9-CM coding classification systems in order to assign valid diagnostic and/or procedure codes. Other classifications, nomenclatures, and medical vocabularies are also presented. The laboratory sessions include opportunities for application of coding principles related to reimbursement, the prospective payment system, and ethical issues related to reimbursement. Practice sessions will include coding inpatient and outpatient records, case mix/severity data, and PPS reimbursement methods.
- 1009 Nonprescription Drug Therapy Lec. 3 Lab. 0 Cr. 3**
A course designed to provide students with a foundation of knowledge in the treatment of common illnesses and ailments with nonprescription drug therapy. The major concepts include defining the health problem being treated, selecting the appropriate drug product for treatment, drug administration, drug classification, drug ingredients, drug interactions, contraindications, and other essentials for helping individuals self treat. Open to students in all majors.
- 1100 Emergency Medical Technician - First Responder Lec. 2 Lab. 3 Cr. 3**
Prerequisite: Exemption from or successful completion of REA 0005; eligibility criteria as established by LA Bureau of Emergency Medical Services. The First Responder course provides a study of the emergent conditions of victims of a medical emergency in the pre-hospital environment. A patient assessment model focusing on airway, breathing, and circulation is

implemented in determining the seriousness of a patient's condition or extent of injury. Assessment findings are utilized to administer basic emergency care with a limited amount of emergency equipment until the Emergency Medical Services (EMS) team arrives. Emphasis is placed on scene stabilization and initial management of mass casualty incidents, skills fundamental to the role of First Responder.

Course content adheres to the U.S. Department of Transportation EMT - First Responder curriculum and prepares students for Louisiana state certification (required) and National Registry Examination for First Responder (optional).

1102 Pharmacy Practice Lec. 2 Lab. 2 Cr. 3

Prerequisite: ENGL 1001, HESC 1003, HESC 1004, HESC 1400, PHSC 1001. Pre or Corequisite: HESC 1115. This course provides instruction in the technical procedures for preparing and dispensing drugs in the hospital, retail, and long-term care settings when under the direct supervision of a registered pharmacist. Topics include drug packaging and labeling, dispensing techniques, non-sterile compounding, quality assurance, pharmacy law, billing and inventory management, and the future of pharmacy practice.

1110 Sterile Products/Lab Lec. 2 Lab. 2 Cr. 3

Pre requisites: HESC 1101, HESC 1102, HESC 1115, HESC 1116 and HESC 1151. This course provides an introduction to aseptic techniques, admixture preparation, incompatibility and stability, immunization and irrigation solutions, total parenteral nutrition, and chemotherapy.

1115 Pharmacology for Health

Sciences Lec. 3 Lab. 0 Cr. 3

Prerequisite: ENGL 1001, HESC 1003, HESC 1400, PHSC 1001. Pre or Corequisite: HESC 1101. A course designed to provide the allied health student with a foundation in drug related information. The major concepts include allied health roles in drug administration, classification of drugs, methods of drug administration, and physiological responses to drug administration.

1116 Pharmaceutical Dosage Calculations and Measurements Lec. 3 Lab. 0 Cr. 3

Prerequisite: ENGL 1001, HESC 1003, HESC 1004, HESC 1400, PHSC 1001. Pre or Corequisite: HESC 1101, HESC 1102, HESC 1115. A course designed to provide the allied health student with a foundation in dosage calculations and measurements. The major concepts are to instruct and train the individual to calculate properly medication (drugs) dosages and measurements. This course is designed to present

clear and concise methods of dosage calculation and afford the student the opportunity to practice these skills utilizing practical situations.

1151 Pharmacy Clinical

Practice I Lec. 0 Lab 16 Cr. 5

Prerequisite: ENGL 1001, HESC 1003, HESC 1004, HESC 1400, PHSC 1001. Pre or Corequisite: HESC 1102, HESC 1115, HESC 1116. This course provides the Pharmacy Technician clinical student the opportunity to work in pharmacy settings under the supervision of a registered pharmacist. Emphasis is placed on effective communication, understanding pharmacy operations, and dispensing of medications. The student will be assigned to retail and hospital pharmacies for approximately 240 hours.

1152 Pharmacy Clinical

Practice II Lec. 0 Lab 16 Cr. 5

Prerequisite: HESC 1101, HESC 1102, HESC 1115, HESC 1116 and HESC 1151. Pre or Corequisites: HESC 1202, HESC 1110, HESC 1111, HESC 1113, HESC 1120. This course provides continued opportunity to work in a pharmacy setting under the supervision of a registered pharmacist. The student will be assigned to retail and hospital pharmacies for approximately 250 hours. This is a continuation of Health Science 1151.

1200 Emergency Medical Technician -

Basic Lec. 4 Lab. 6 Cr. 6

Prerequisite: Based on ACT scores, applicants must be exempt from or have completed REA 0005. EMT-Basic provides a study of the emergent conditions of victims of a medical emergency in the prehospital environment. A patient assessment model based on medical and trauma information is implemented in determining the nature and seriousness of a patient's condition or extent of injury. Assessment findings are utilized to administer emergency care appropriate to the patient's condition. Correlation of theory and clinical is provided in area emergency departments, obstetrical units, and medical-surgical units. Course content adheres to the U.S. Department of

Transportation EMT-Basic curriculum and prepares students for the National Registry Examination of EMT-Basic.

1202 Applied Clinical

Pharmacology Lec. 3 Lab. 0 Cr. 3

Prerequisite: HESC 1101, HESC 1102, HESC 1115, HESC 1116 and HESC 1151. This course presents major drug classifications with specific drug prototypes for each classification. The emphasis will be on drug therapy as it relates to

different patient populations. Also included are therapeutic and adverse effects, patient information, and compliance.

1400

Health Care Language

Applications **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: Eligibility for ENGL 1001. A comprehensive study of the complex language of health care, medical terminology, with practical applications. The body systems approach provides the learner with a strong foundation for interpretation of case reports, operative and diagnostic lists, autopsy records, laboratory and radiology reports. To broaden the understanding of applications of health care language, basic underlying concepts of anatomy, physiology and pathology are integrated with related medical terminology.

History (HIST)

1001

◆ History of Western Civilization**Lec. 3 Lab. 0 Cr. 3**

A general survey of ideas, trends and institutions in Western Civilization from the earliest times to the Reformation.

1003

◆ History of Western Civilization**Lec. 3 Lab. 0 Cr. 3**

A general survey of the developments of Western Civilization from the Reformation to the present.

1007

History and Ethics of**Nursing****Lec. 3 Lab. 0 Cr. 3**

(Also offered as NURS 1007) This course focuses on the development of nursing as a health care profession and on ethical issues that an individual should consider in the practice of that profession.

2011

◆ English History**Lec. 3 Lab. 0 Cr. 3**

A survey of English history from Roman times to 1500.

2012

◆ English History**Lec. 3 Lab. 0 Cr. 3**

A survey of English history from 1500 to the present time.

2030T

Historical/Cultural Study**Tour****(Travel Course) Cr. 3**

Selected sites and selected topics. Travels, lectures, readings, and reports. This course may be used as elective credit only and may be repeated for up to six hours credit when sites and topics change.

2055

◆ American History**Lec. 3 Lab. 0 Cr. 3**

Survey of American history from the earliest times to 1865. **Prerequisite for all advanced courses in American history.**

2057

◆ American History**Lec. 3 Lab. 0 Cr. 3**

Survey of American history from 1865 to present. **Prerequisite for all advanced courses in American history.**

2059

American History**Lec. 3 Lab. 0 Cr. 3**

Survey of American history from World War II to the present.

2061

◆ African-American History**Lec. 3 Lab. 0 Cr. 3**

Social, cultural, and economic role of African-Americans in the U.S. from 1619 to the Present.

2920

Selected Topics**Lec. 3 Lab. 0 Cr. 3**

Prerequisite: The applicable survey course or permission of the instructor. An examination of topics significant to understanding human history. Course content and subject varies; may be taken twice for credit.

3071

Louisiana History**Lec. 3 Lab. 0 Cr. 3**

General survey of the political, economic, social, and cultural development of Louisiana.

4015

Nineteenth Century**Europe****Lec. 3 Lab. 0 Cr. 3**

The period 1815-1919 with emphasis on revolutions, nationalism, industrialism, imperialism and World War I.

4017

Contemporary Europe, 1919 to the**Present****Lec. 3 Lab. 0 Cr. 3**

Twentieth century developments including economic depression, struggling democracies, fascism, World War II, Cold War and search for union.

4050

Colonial America and American Revolution:**1607-1783****Lec. 3 Lab. 0 Cr. 3**

The Cultural, economic, political, and military developments in the thirteen colonies and the struggle for American Independence.

4054

Jacksonian America:**1824-1848****Lec. 3 Lab. 0 Cr. 3**

The rise of Andrew Jackson, political party development, reform movements, slavery, sectional crisis, and Mexican War.

4060

Age of Roosevelt**Lec. 3 Lab. 0 Cr. 3**

From the inaugural of FDR to the surrender of Japan; the Great Depression and the New Deal; the thirties' search for an American culture; the road to Pearl Harbor; America in World War II, at home and abroad.

4065

History of Contemporary**America****Lec. 3 Lab. 0 Cr. 3**

History of America since 1945, focusing on domestic affairs.

- 4071 The Antebellum South Lec. 3 Lab. 0 Cr. 3**
Economics, social, intellectual, and political development of the South to 1860.
- 4072 The New South Lec. 3 Lab. 0 Cr. 3**
Political, economic, social, and intellectual history of the South since 1877.
- 4073 Louisiana to 1815 Lec. 3 Lab. 0 Cr. 3**
Political, economic, and social development of early Louisiana.
- 4130 World War II Lec. 3 Lab. 0 Cr. 3**
Global crisis of the 1930's: Axis and Allied Strategies; major military campaigns, great power diplomacy; life on the home fronts; Holocaust; espionage and resistance; the experience of combat; social, political, and scientific consequences.
- 4197 Special Studies in United States History Lec. 3 Lab. 0 Cr. 3**
Prerequisite: Consent of history faculty. May be repeated for credit when topics vary.
- 4901 Independent Study Lec. 0 Lab. 0 Cr. 3**
Open to advanced students of high academic standing. Reading and research on selected topics.

Home Economics (HEC)

- 2010 Nutrition in Health and Disease Lec. 3 Lab. 0 Cr. 3**
Prerequisite: Two semesters of chemistry or one semester of chemistry and permission of department. Course designed primarily for students planning to enter the health field. Principles of normal nutrition and dietary modifications related to disease conditions.

Interpretation (INTR)

- 1320 American Sign Language I Lec. 3 Lab. 0 Cr. 3**
An introductory course in American Sign Language (ASL) designed to develop basic receptive and expressive language skills. Emphasis will be on development of appropriate handshapes and movements necessary to produce accurate signs. Students will learn basic language structures, acquire a working vocabulary and knowledge of sentences, phrases, and appropriate non-manual behaviors in ASL. The use of the voice by instructor and students is held at a minimum.

Kinesiology (KINS)

ACTIVITY COURSES Lec. 0 Lab. 3 Cr. 1
(unless otherwise specified)

Beginning Activities

- 1121 Fencing
1123 Archery
1124 Tennis
1125 Golf
1126 Gymnastics
1127 Modern Dance
1129 Badminton
1130 Bowling
1131 Ballet
1132 Ballroom Dancing
1134 Folk and Square Dancing
1135 Water Exercises
1136 Swimming
1140 Scuba Diving
Prerequisite: KINS 1136 or consent of instructor. Basic techniques and procedures in Skin and Scuba Diving. Three hours laboratory per week.
- 1142 Aerobic Conditioning
1146 Weight Training
1152 Dance Theatre
May be taken twice for credit. Admission by audition. Participation in the performing modern dance theatre. Four hours laboratory per week.
- 1153 Jazz Dance
1157 Aerobic Dance
1161 Self Defense

Intermediate Activities

- 1223 Archery
Prerequisite: consent of instructor.
1224 Tennis
Prerequisite: consent of instructor.
1226 Gymnastics
Prerequisite: Successful completion of KINS 1126 or consent of instructor.
1257 Aerobic Dance
Prerequisite: Successful completion of KINS 1157 the preceding semester (excluding summer session) or consent of instructor.
1261 Self Defense II
Prerequisite of successful completion of KINS 1161 or consent of instructor.

Advanced Activities

- 1337 Senior Life Saving
1338 Water Safety Instructor's Course
1340 Advanced Scuba Diving
Prerequisite: Basic Open Water Certified Diver. Advanced techniques and procedures in scuba diving. Three hours laboratory per week.

PROFESSIONAL COURSES**1600 Personal and Community****Health Lec. 3 Lab. 0 Cr. 3**

A survey of current problems affecting the overall health of the individual and society in our modern environment.

1999 Special Topics Lec. 0 Lab. 3 Cr. 1

May be taken for a maximum of four (4) semester hours credit when topics vary. Three (3) hours of lab. Identification, analysis, and practice of skills and techniques fundamental to exercise/sports, rules, strategies, and appropriate safety procedures.

2500 Human Anatomy Lec. 3 Lab. 0 Cr. 3

Prerequisite: Sophomore standing. For Health and Physical Education majors and minors. Structural human anatomy and its application basic to an understanding of problems in athletic and corrective physical therapy.

2501 Principles and History of Physical**Education Lec. 3 Lab. 0 Cr. 3**

A study of the scientific, philosophical and historical foundations of health education and physical education.

2502 Tests and Measurements in Physical**Education Lec. 3 Lab. 0 Cr. 3**

An introduction to testing and evaluation in physical education. Current research in the field and statistical techniques involved.

2504 Principles of**Conditioning Lec. 1 Lab. 1 Cr. 2**

Course designed to present current methods and concepts of training and conditioning. The place of physical fitness activities in the physical education program. Current trends in fitness programs, participation in selected activities designed to promote fitness, planning programs for physical fitness for educational institutions and social agencies.

2507 Methods and Materials in Physical Education**for the Elementary School****Lec. 3 Lab. 3 Cr. 4**

For elementary school teachers. Progressively graded programs of physical activities for elementary schools.

2508 Practicum in the Teaching of Individual**Sports Lec. 0 Lab. 3 Cr. 1**

Prerequisite: competency in the activity to be taught and permission of instructor. Credit may be repeated three times if experience represents different individual sports for a maximum of three credit hours.

2513 Introduction to Motor**Learning Lec. 3 Lab. 0 Cr. 3**

Principles of motor learning and improvement of physical performance; role of growth and development; and emotional and psychosocial phenomena in motor learning and performance.

2520 The Coaching of**Gymnastics Lec. 1 Lab. 2 Cr. 2**

Prerequisite: successful completion of HPRD 1126 or HPRD 1226 and consent of instructor. Principles and techniques of coaching gymnastics: Organization and administration of practice and various levels of competition.

2540 Introducing Physical Education for All**Handicapped Children Lec. 3 Lab. 0 Cr. 3**

Laws affecting the handicapped; the motor abilities of handicapped children and how programs can be adjusted to suit their needs and interests.

2601 First Aid Lec. 3 Lab. 0 Cr. 3

Designed to teach the lay person proper techniques required to complete CPR, rescue breathing, Heimlich Maneuver, and wound care. Information regarding shock, poisoning, fractures, and unconsciousness is included for adults, children, and infants.

2602 Methods and Materials in Health Education for the Elementary School Lec. 3 Lab. 0 Cr. 3

Designed for elementary education majors. Preparation of the elementary school teacher in skills, attitudes, and knowledge requisite to health education of children.

2800 Beginning Modern**Dance Lec. 0 Lab. 3 Cr. 1**

For majors or minors in physical education.

3510 Techniques and Methods of Teaching Physical**Education (K-12) Lec. 2 Lab. 3 Cr. 3**

Microteaching and field experience required. Current teaching methods and materials in physical education; teaching styles, aids, and formulation of lesson and unit plans.

3515 Exercise Physiology Lec. 3 Lab. 0 Cr. 3

Prerequisite: KINS 2500, 2504. Basic physiological concepts of the muscular, metabolic, cardiorespiratory systems; behavior of each system in relation to exercise; determination of normal and abnormal physical responses to exercise; development of a philosophy of scientific inquiry.

3660 Stress Management Lec. 3 Lab. 0 Cr. 3

Sources of stress; evaluation of stress-related diseases; techniques for promoting stress reduction; prevention of stress-related diseases.

Mass Communication (MC)

2000 ♦ **Introduction to Mass Media** **Lec. 3 Lab. 0 Cr. 3**
Introduction of Mass Media will highlight the various aspects of American mass media including development, structure, problems and opportunities. Mass communications theory and processes will also be addressed.

2151 ♦ **Media Writing** **Lec. 1 Lab. 4 Cr. 3**
Prerequisite: "C" or better in ENGL 1002; typing ability of about 35 words per minute. Practice in locating sources of news, interviewing, and note taking; evaluating and organizing facts; writing basic kinds of news stories, using wire service style.

Mathematics (MATH)

0001 ♦ **Preparation for College Mathematics** **Lec. 5 Lab. 0 Cr. 5**
Prerequisite: Placement by ACT (see placement section of this catalog) or consent of the mathematics faculty. Not for degree credit. Five semester hours will be added to the degree program of any student taking this course. Operations with whole numbers, decimals, fractions, signed numbers, polynomials, linear equations, applications of linear equations, fractional equations, special products and factoring, algebraic fractions, simultaneous linear equations, exponents, and radicals. Pass/No Credit.

0002 ♦ **Intermediate College Algebra** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: MATH 0001 or placement by ACT (see placement section of this catalog) or consent of the mathematics faculty. Not for degree credit. Three semester hours will be added to the degree program of any student taking this course. Linear equations and inequalities, polynomials and factoring, algebraic fractions, operations on radical expressions, rational exponents, quadratic equations, simultaneous linear equations, ratio and proportion, and graphing.

1021 ♦ **College Algebra** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: A grade of "C" or better in MATH 0002, placement by ACT (see placement section of this catalog), or consent of the mathematics faculty. Functions and graphs, exponential and logarithmic functions, analytic geometry, systems of equations and inequalities.

1022 ♦ **Plane Trigonometry** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: MATH 1021 or placement by ACT (see placement section of this catalog.) - Trigonometric functions and identities, inverse trigonometric functions, graphs, solving triangles and equations, complex numbers, and polar coordinates.

1100 ♦ **The Nature of Mathematics** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: MATH 1021 or consent of the mathematics department. Not for science, engineering, or mathematics majors. For students who desire an exposure to mathematics as part of a liberal education. Logic, the algebra of logic, computers, and number systems, networks and combinatorics, probability and statistics.

1201 ♦ **Number Sense and Open-Ended Problem Solving** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: MATH 1021. Primarily for students in elementary education. Cardinality and integers; decimal representation and the number line; exploratory data analysis; number sense; open-ended problem solving strategies; written communication of mathematics. Does not meet general education requirements.

1202 ♦ **Geometry, Reasoning, and Measurement** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: MATH 1201. Primarily for students in elementary education. Synthetic and coordinate geometry in two and three dimensions; spatial visualization and counting procedures; symmetries and tilings; history of geometry; written communication of mathematics. Does not meet general education requirements.

1431 ♦ **Calculus with Business and Economic Applications** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: MATH 1021 or consent of department. Differential and integral calculus of algebraic functions, with applications to economic models and probability.

1550 ♦ **Analytic Geometry and Calculus I** **Lec. 5 Lab. 0 Cr. 5**
Prerequisite: MATH 1022 or consent of the mathematics faculty. Credit will be given for only one of the following: MATH 1431, MATH 1550. Analytic geometry, limits, derivatives, integrals.

1552 ♦ **Analytic Geometry and Calculus II** **Lec. 5 Lab. 0 Cr. 5**
Prerequisite: MATH 1550. Conics, arc length, transcendental functions, coordinate systems, infinite series.

- 2011** ♦ **General Statistics** **Lec. 3 Lab. 1 Cr. 3**
(Also offered as PSYC 2011 and STAT 2011.)
Prerequisite: MATH 1021 or above, or consent of instructor. Machine computation and elementary theory relating to basic statistical techniques: normal distribution, descriptive statistics, statistical inference, product moment correlation, simple rank order correlation, and simple analysis of variance.
- 2057** **Multidimensional Calculus** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: MATH 1552. Three dimensional analytic geometry, partial derivatives, and multiple integrals.
- 2065** **Elementary Differential Equations** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: MATH 1552. A beginning course in ordinary differential equations with emphasis on the solving of linear equations.
- 2085** **Linear Algebra** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: MATH 1552. Systems of linear equations, vector spaces, linear transformations, matrices, and determinants.
- 2220** **Geometry** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: MATH 1021. A study of selected topics in plane, solid, and analytical geometry.
- 2901** **Selected Topics in Mathematics** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: consent of department. May not be repeated for credit.

Military Science (MILS)

- 1011** **Introduction of Officership I** **Lec. 1 Lab. 2 Cr. 3**
Introduction to the Reserve Officer Training Corps (ROTC) and the customs, traditions, organization and role of the U.S. Army; basic map reading and land navigation skills, basic first aid, military writing skills.
- 1012** **Introduction of Officership II** **Lec. 1 Lab. 2 Cr. 3**
Prerequisite: MILS 1011 or permission of instructor. Introduction to radio communications; reinforcement of map reading and land navigation skills; introduction to small unit tactics and operations; introduction to the Constitution, leadership and officer ethics.
- 2161** **Officer Leadership and Management Roles I** **Lec. 2 Lab. 1 Cr. 3**
Pre-requisite: MILS 1011 and 1012 or consent of instructor. Map symbols and reference systems;

land navigation; small unit tactics; exercises in written and oral communication; first aid.

- 2162** **Officer Leadership and Management Roles II** **Lec. 2 Lab. 1 Cr. 3**
Pre-requisite: MILS 1011, 1012, and 2161 or consent of instructor. Planning, organizing, and managing the activities of small organizations, time management, tactics, Army organization.

Music (MUS)

- 1751** ♦ **Music Appreciation** **Lec. 3 Lab. 0 Cr. 3**
Open to all students. A general introduction to Western concert music with emphasis on great works of the nineteenth century. Includes how to listen to classical music; concert-going; and stylistic characteristics of nineteenth century romanticism in music.
- 1752** ♦ **Music Appreciation** **Lec. 3 Lab. 0 Cr. 3**
Open to all students. A general introduction to Western concert music with emphasis on great works of the twentieth century. Includes the state of the arts in contemporary America; new trends in music such as the performer versus the computer/synthesizer; and stylistic characteristics of twentieth century music.
- 1784** **University Chorus** **Lec. 0 Lab. 3 Cr. 1**
(Course may be repeated for credit four times)
Enrollment in this course by permission of the instructor. Intensive study of choral music of all periods, including preparation for public performance.
- 3020** **American Musical Theatre** **Lec. 3 Lab. 0 Cr. 3**
(Also offered as THTR 3020.) Development of the American Musical in its cultural, theatrical, and social contexts from its beginning to the present day; elements of musical theatre focusing on the works of composers, lyricists, designers, directors, choreographers, and performers.

Nursing (NURS)

- 1000** **Nursing Assistant** **Lec. 3 Lab. 4 Cr. 5**
Prerequisites: Based on ACT scores, applicants must be exempt from or have completed REA 0005. "NURS 1000" is designed to prepare the student to function in the role of nursing assistant in hospitals, long-term care facilities, and home health agencies. Development of knowledge, attitude, and skills necessary to provide safe, effective care for clients in a variety of settings is stressed. The nursing laboratory and the clinical setting provide an opportunity for the student to

- function under the supervision of a professional nurse and cooperatively with members of the health care team.
- 1001 Introduction to the Health Care System Lec. 1 Lab. 0 Cr. 1**
(Also offered as HESC 1003) This course is designed to introduce persons with an interest in health care delivery to the health care system. The information in this course will focus on the history of health care and nursing. Other areas of interest are the financial aspects of health care, providers of health care, legal and ethical issues of health care, and health care as a profession. Recommended for pre-nursing students and other students interested in health care delivery.
- 1002 Pharmacological Dosages and Solutions Lec. 1 Lab. 0 Cr. 1**
Prerequisite: Eligibility to take MATH 1021, Pre- or Corequisite: NURS 1016. An in-depth analysis of the process of calculating medication dosages and solutions for adults and children. Content progresses from calculation of intramuscular and intravenous medications and solutions. Problems commonly encountered in the practice of Nursing related to dosages and solutions will be included with an emphasis on drug response as influenced by drug dosage.
- 1005 Intravenous Therapy for Licensed Practical Nurses Lec. 1.2 Lab. 1.5 Cr. 2**
Prerequisite: LPN or NURS 1016. Emphasis will be placed on promoting, maintaining and restoring fluid and electrolyte balance in the client through the use of the nursing process. The principal concepts and mechanisms of fluid and electrolyte balance will be reviewed followed by assessment of fluid balance and rationale for replacement therapy. Appropriate nursing interventions for initiating, maintaining and discontinuing IV therapy utilizing a variety of access devices will be discussed. Additionally, complications of IV therapy will be stressed including early recognition and interventions to treat and prevent complications. The learning lab will provide opportunity for demonstration and practice of skills presented.
- 1006 Toward Healthy Aging Lec. 3 Lab. 0 Cr. 3**
Toward Health Aging introduces developmental concepts and principles of later adult life. Biological, cognitive, psychological, and sociological influences will be analyzed. Emphasis is placed on assisting and meeting health care demands of any elderly individuals in need of assistance in meeting self-care deficits and needing to acquire self-care skills. This course may be taken by any student as a general elective
- and will not satisfy any nursing degree requirements.
- 1007 History and Ethics of Nursing Lec. 3 Lab. 0 Cr. 3**
(Also offered as HIST 1007). This course focuses on the development of nursing as a health care profession and on ethical issues that an individual should consider in the practice of that profession.
- 1009 Health Care of Women Lec. 3 Lab. 0 Cr. 3**
Prerequisites: ENGL 1001 or permission of instructor. Provides for the overall study of women as members of society, as well as their diseases and/or childbearing functions. Attention will be focused on the contemporary woman as a health care consumer. Major concepts to be explored include assessment of woman's health using a holistic approach; psychophysical health concerns of the contemporary woman; lifestyle concerns of the contemporary woman; social, economics, and environmental hazards; and an overview of major reproductive and gynecologic concerns.
- 1010 Understanding Medical Terminology Lec. 1 Lab. 0 Cr. 1**
This course is designed to enable the student to understand complex medical terms by learning the three hundred prefixes and suffixes most commonly used in medical terminology. Knowledge of these root elements will enable the student to understand the most frequently used medical terms. Audionyms and visual symbols will be used to introduce each root element.
- 1011 Techniques for Professional and Personal Survival Lec. 3 Lab. 0 Cr. 3**
Course designed to provide the student with a better understanding of self and others, insight into one's own personality, a feeling of self-esteem and self-confidence, and techniques to improve relationships, cope with stress, and reduce anxiety.
- 1014 Human Lactation Lec. 3 Lab. 0 Cr. 3**
Prerequisite: ENGL 1001 or approval of the instructor. An in-depth overview of human lactation and breastfeeding. This course will focus on the historical and sociocultural context of infant feeding, the anatomical and biological aspects, prenatal, perinatal and postnatal periods associated with breastfeeding, and contemporary issues surrounding lactation.
- 1016 Fundamentals of Nursing Lec. 4 Lab. 6 Cr. 6**
Prerequisites: Successful completion ("C" or better) of ENGL 1001, CHEM 1001, MATH 1021, and BIOL 1161. "Fundamentals of Nursing" introduces basic concepts and principles of nursing care. Emphasis is placed upon the development of

fundamental nursing skills, techniques, and knowledge that provide a foundation upon which to build future nursing courses. The philosophy, conceptual framework of nursing program, professional ethics, nursing process, mental health concepts, communication techniques, principles of nutrition, pharmacology, and medical-surgical asepsis are introduced. Clinical laboratory experience is in the nursing laboratory and in health agencies, providing the student the opportunity to develop nursing skills by giving direct patient care.

1017 Accelerated Guided Study

for the LPN Lec. 4 Lab. 6 Cr. 6
Prerequisite: CHEM 1001, ENGL 1001, ENGL 1002, MATH 1021, PSYC 2000, BIOL 1162. MATH 1100 or PSYC 2070 may be taken as a prerequisite or as a corequisite but must be taken prior to entering NURS 2050/2052. Proof of LPN Licensure. An introduction to the philosophy and conceptual framework of the curriculum of LSUA Division of Nursing. The nursing process and other concepts basic to the practice of nursing are explored. These include: professional role socialization, adaptive and maladaptive responses to stress and application of the nursing process in mental health settings. Required activities in the nursing laboratory experience provide for refinement and enhancement of nursing skills and techniques. A weekly six hour clinical experience is provided in a mental health setting. This course is designed to be the first nursing course taken by the LPN.

1022 Medical Surgical

Nursing I Lec. 4 Lab. 12 Cr. 4
Prerequisite: NURS 1016 or successful completion ("C" or better) of a credit examination administered by the Division of Nursing, MATH 1100, PSYC 2000 and BIOL 1162. "Medical Surgical Nursing I" provides for the study of patients with well defined medical-surgical problems. The nursing process is used to focus on needs of patients responding to stress and illness. Major concepts and theories of selected medical-surgical disorders include interruption in tissue integrity, pain, altered ventilatory function, derangement of body fluids, and mechanisms of shock. To facilitate transfer of these concepts to clinical performance, nursing care of patients adapting to the stress related to surgical intervention, cancer, burns, and dermatological disorders, and those experiencing oxygen deprivation will be provided in general hospital medical-surgical units. Orientation to surgery and recovery rooms will be provided.

1024 Psychiatric-Mental Health

Nursing Lec. 4 Lab. 12 Cr. 4

Prerequisite: NURS 1016 or successful completion ("C" or better) of a credit examination administered by the Division of Nursing, MATH 1100, PSYC 2000, and BIOL 1162. "Psychiatric-Mental Health Nursing" is designed as a study of man's adaptive and maladaptive responses to stress throughout the life cycle. The principal focus of the course is on the utilization of the nursing process with clients in mental health settings which provide secondary care. Particular emphasis is given to the use of techniques of communication which are appropriate for one-to-one psychotherapeutic nurse-patient relationships. The concepts of stress-adaptation, basic human needs and developmental processes are interwoven in the structure of the course, and an eclectic view of other relevant contemporary theories is presented. Guided clinical laboratory experiences are provided.

2048 Nursing Perspectives Lec. 2 Lab. 0 Cr. 2

(Fall, Spring, & Summer) Prerequisites: NURS 1022, 1024. "Nursing Perspectives" surveys nursing history and presents current issues, problems, and emerging trends. Concepts explored include legal aspects, professional organizations, and role transition from student to practitioner. Responsibilities of the registered nurse and management skills related to the delivery of direct patient care are included in this theory course.

2050 Maternal and Neonatal

Care Lec. 4 Lab. 12 Cr. 4

Prerequisite: NURS 1022, 1024, ENGL 1002, BIOL 1162, and PSYC 2070. An eight-week course. This course is designed to facilitate learning about pregnancy, labor, delivery, and the postpartal period and the neonate. Through the application of growth and development principles and the use of the nursing process, students identify stressors, promote health and adaptation in women, their families, roles of the nurse, levels of care, legal/ethical principles, and professional values as they relate to adaptive/maladaptive responses in to stressors associated with the antepartal, intrapartal, postpartal, and neonatal periods. Clinical nursing care experiences are provided in appropriate primary and secondary settings which can include: the newborn nurser, labor and delivery, operating room recovery room, and postpartal units as well as the antepartal clinic, the family planning clinic and prenatal education classes.

- 2052 Nursing Care of the Child Lec. 4 Lab. 12 Cr. 4**
Prerequisites: NURS 1022, 1024, ENGL 1002, and PSYC 2070. "Nursing Care of the Child" is designed to facilitate learning about the uniqueness of caring for children and their families, expanding the student's ability to assess, analyze, plan, implement, and evaluate nursing care. Through the application of growth and development concepts and the use of the nursing process, students identify stressors and promote health in children and their families. Additionally, the concepts of nutrition, communication, cultural diversity, roles of the pediatric nurse, legal-ethical principles, levels of care, and professional values are discussed in relation to adaptive and maladaptive responses in children and their families. Clinical experiences are provided in primary, secondary and tertiary care settings.
- 2056 Medical-Surgical Nursing II Lec. 4 Lab. 12 Cr. 4**
Prerequisites: NURS 2050, 2052, CSC 1000, and BIOL 2051. Pre- or Corequisites: NURS 2048 and NURS 2080. "Medical-Surgical Nursing II" provides a study of adult patients with well-defined stressors related to alterations of gaseous transport, body regulation and integration and reproductive functions. The nursing process is utilized to formulate nursing care plans and to apply theoretical knowledge to patient situations. Expected outcomes of nursing intervention are evaluated. Correlation of theory and clinical is provided on medical-surgical units in community facilities.
- 2058 Medical-Surgical Nursing III Lec. 4 Lab. 16 Cr. 5**
Prerequisite: NURS 2056 and CSC 1000. Pre- or Corequisites: NURS 2048 and NURS 2080. "Medical Surgical Nursing III" provides a study of adult patients experiencing well defined stressors related to alterations of sensorimotor function, gastric absorption and intestinal and urinary elimination. In addition to strengthening the role of the associate degree nurse as a provider of care through the use of the nursing process, the role as manager of groups of patients is emphasized. The clinical experience and independent study is designed to provide the student with opportunities for self-growth in nursing and to encourage the beginning transition from student to professional nurse. The clinical experience is provided on medical-surgical nursing units in community facilities.
- 2080 Pharmacology Lec. 3 Lab. 0 Cr. 3**
Prerequisite: NURS 1022, 1024, LPN and BIOL 1162; RN; or permission of instructor. This course is designed to give the nursing student thorough and practical information about classifications and groups of drugs, their therapeutic action(s), indications, interactions (including foods) and side effects. The focus is placed on the nursing assessment, implementation (including calculation and conversion of dosages), client teaching and evaluation in regard to drug therapy.
- 2090 Health Assessment Lec. 2 Lab. 0 Cr. 2**
Prerequisites: Enrollment in clinical nursing courses or LPN status. "Health Assessment" provides for the development of techniques in basic physical assessment, history taking, and recording. Both normal and abnormal findings as well as age and cultural variations will be encountered.
- 2092 Comprehensive Nursing Lec. 3 Lab. 0 Cr. 3**
Prerequisite: NURS 2058, Registered Nurse, or Registered Nurse Applicant. The focus of this nursing elective is to provide a comprehensive study of concepts of clinical areas which are incorporated into integrated nursing practice. The course is designed to provide for further application of nursing concepts to complex clinical situations. Self assessment activities and data from RN job analysis studies will permit course participants to identify areas of weakness and strength. Not for Degree credit.
- Paralegal/Legal Assisting (PRLG)**
- 1001 Introduction to Paralegal Studies Lec. 3 Lab. 0 Cr. 3**
An introductory course in paralegal studies/legal assisting; the role and skills of the paralegal/legal assistant.
- 2000 Law Office Management Lec. 3 Lab. 0 Cr. 3**
Prerequisite: PRLG 1001 or consent of instructor. An overview of the fundamentals of law office management including personnel relations, timekeeping, billing, financial management, docket control systems, and law library maintenance. The course will also focus on legal ethics, client relations, and professional responsibility.
- 2130 Civil Litigation Lec. 3 Lab. 0 Cr. 3**
An introduction to Civil Litigation, including case preparation, discovery, pleading and motions, trial and post-trial proceedings.

2132 The Judicial Process Lec. 3 Lab. 0 Cr. 3
Also offered as CJ 2132. An examination of the role, function, and structure of the courts and their relationship to the criminal justice system.

2230 Legal Research and Writing I Lec. 3 Lab. 0 Cr. 3
Prerequisite: A grade of "C" or higher in ENGL 1002. An overview of basic techniques and methods of legal research; practice in writing various legal documents and proper legal citation forms.

2231 Legal Research and Writing II Lec. 3 Lab. 0 Cr. 3
Prerequisite: A grade of "C" or higher in PRLG 2230. An overview of basic techniques and skills needed for the use of legal references; practice and guidance in legal writing, analysis, and evaluation.

2999 Selected Topics in Paralegal Studies Lec. 3 Lab. 0 Cr. 3
May be taken more than once for credit when topic changes.

Philosophy (PHIL)

1000 ♦ Introduction to Philosophy Lec. 3 Lab. 0 Cr. 3
Major works from the philosophic tradition as they examine questions such as the ground and status of knowledge (epistemology); the nature of truth and Being, and the meaning and status of nature (metaphysics); principles of political life and law, ancient and modern (political philosophy); the nature of virtue: right, good, and human excellence (moral philosophy).

1021 ♦ Introduction to Philosophy: Elementary Logic Lec. 3 Lab. 0 Cr. 3
No special background presupposed. Formal and informal reasoning: traditional Syllogistic logic, mod' em deductive logic, and scientific method in the natural and social sciences.

2020 ♦ Ethics Lec. 3 Lab. 0 Cr. 3
Classical and modern theories of right and good, freedom and obligation, and rights and duties; consideration of the ground for sound moral judgment. Includes works of philosophers such as Plato, Aristotle, Cicero, Aquinas, Machiavelli, Mill, and Kant.

2025 Bioethics Lec. 3 Lab. 0 Cr. 3
Defining health and disease; deciding on rights, duties, and obligations in the patient-physician relationship; abortion and the concept of a person; defining and determining death; euthanasia and the

dignity of death; allocation of medical resources, both large-scale and small-scale; experimentation with fetuses, children, prisoners, and animals; genetic testing, screening, and interference.

2033 ♦ History of Ancient and Medieval Philosophy Lec. 3 Lab. 0 Cr. 3
Introduction to philosophy through a study of some of the main writings of classical and medieval philosophy.

2035 ♦ History of Modern Philosophy Lec. 3 Lab. 0 Cr. 3
Introduction to philosophy through a study of some of the main writings of Modern philosophy.

3020 Special Topics in Philosophy Lec. 3 Lab. 0 Cr. 3
Special Topics in Philosophy may be taken for up to six (6) credit hours when topics vary.

Physical Science (PHSC)

1001 ♦ Physical Science Lec. 3 Lab. 0 Cr. 3
Prerequisite: Eligibility for MATH 0002. A non-technical survey course covering a broad range of topics in the field of chemistry and physics. It is not intended for students who wish to pursue further work in chemistry or physics, and may not be substituted for basic courses covering these areas of science.

1002 ♦ Physical Science Lec. 3 Lab. 0 Cr. 3
Prerequisite: PHSC 1001. A non-technical survey course in the Physical sciences. Topics are taken primarily from the fields of astronomy, chemistry, and meteorology. Credit will not be given for both this course and any other college level astronomy.

1003 ♦ Physical Science Laboratory Lec. 0 Lab. 2 Cr. 1
Prerequisite: Credit in PHSC 1001. Laboratory course in the fundamentals of physical science.

Physics (PHYS)

COREQUISITES: A student may not continue in a course if the corequisite is dropped prior to the last day of the mid-semester examination period.

1001 Principles of Physics Lec. 3 Lab. 0 Cr. 3
Prerequisite: Eligibility for MATH 0002. A non-technical survey course covering a broad range of topics in the field of chemistry and physics. It is not intended for students who wish to pursue further work in chemistry or physics, and may not be substituted for basic courses covering these areas of science.

2001 ♦ **General Physics** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: MATH 1022 or 1023. Non-calculus physics for students in all medical curricula and for students in certain curricula in agriculture, forestry, home economics, arts and sciences, education and business. A study of principles and applications of mechanics, heat, and sound.

2002 ♦ **General Physics** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: PHYS 2001. A study of principles and applications of light, electricity and magnetism, and topics in modern physics.

2101 ♦ **General Physics for Technical Students** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: Credit or registration in MATH 1552. For, students majoring in mathematics, chemistry, physics, and some areas of engineering. Calculus and vector analysis are used in the study of mechanics, heat, and sound.

2102 ♦ **General Physics for Technical Students** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: PHYS 2101, and credit in MATH 1552. Calculus and vector analysis are used in the study of light, electricity and magnetism, and topics in modern physics.

2108 ♦ **General Physics Laboratory** **Lec. 0 Lab. 3 Cr. 1**
Prerequisite: Credit for or registration in PHYS 2001 or 2101. Laboratory course to accompany PHYS 2001 or 2101.

2109 ♦ **General Physics Laboratory** **Lec. 0 Lab. 3 Cr. 1**
Prerequisite: Credit for or registration in PHYS 2102 or 2002. Laboratory course to accompany PHYS 2102 or 2002.

Political Science (POLI)

1001 ♦ **Fundamental Issues of Politics** **Lec. 3 Lab. 0 Cr. 3**
An introduction to the central questions at issue in politics, with special emphasis on their significance for the American government.

2051 ♦ **American Government** **Lec. 3 Lab. 0 Cr. 3**
A survey of the principles, structures, processes, and functions of American government with emphasis on the national government.

2056 ♦ **Louisiana Government** **Lec. 3 Lab. 0 Cr. 3**
A survey of state and local political tendencies in Louisiana with special emphasis on political development after 1812.

2901 **Internship (Internship)** **Cr. 1-2**
Supervised work in national, state or local government or private agencies concerned with public policy designed to provide practical experience in government, politics, and administration. Interns must also attend discussions with the Faculty Coordinator and read assigned materials. Registration with consent of Faculty Coordinator only. See Liberal Arts Division office for selection criteria. May be repeated once for a maximum of 4 hours credit.

4000 **Special Topics in American Politics** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: POLI 2051 and consent of instructor. May be repeated for a maximum of 6 semester hours of credit when topics vary.

4036 **The American Presidency** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: POLI 2051 or equivalent. The presidency in the American political system; emphasis on process of presidential selection, evolving role of the president, politics of the executive apparatus of the presidency, and presidential interaction with other political institutions and actors.

4039 **Southern Politics** **Lec. 3 Lab. 0 Cr. 3.**
The American South in the American political system; analysis of the unique role of the region's politics and government in historical perspective and in contemporary American government.

4081 **History of Political Theory from Plato to More** **Lec. 3 Lab. 0 Cr. 3**
Ancient and Medieval political thought.

4090 **Special Topics in Political Theory** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: Consent of instructor. May be repeated for a maximum of 6 semester hours credit when topics vary.

4996 **Readings Course** **Lec. 0 Lab. 0 Cr. 3**
Prerequisite: Consent of instructor. Supervised reading and research in an assigned field of political science.

4997 **Readings Course** **Lec. 0 Lab. 0 Cr. 3**
Prerequisite: Consent of instructor. Supervised reading and research in an assigned field of political science.

Psychology (PSYC)

1075 **Psychology of Death, Dying and Bereavement** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: ENGL 1001 or consent of instructor. An applied survey course with particular emphasis

- on humanistic perspectives, adjustment mechanisms, self growth, and development of a personal philosophy of death. Discussion of the historical, legal, medical and moral aspects of death, the psychological process of dying, and bereavement and grief. This course may be taken only as a general elective, and will satisfy neither psychology degree requirements nor psychology electives.
- 2000** ♦ **Introduction to Psychology** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: ENGL 1001. A survey course with emphasis on introducing the student to the understanding, prediction, and control of behavior.
- 2004** ♦ **Psychology of Adjustment** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: PSYC 2000 or 2060 or consent of the instructor. An introduction to the study of adjustment mechanisms in normal adults with emphasis upon personal, social and vocational adjustment, plus a survey of broad areas of abnormal behavior.
- 2011** ♦ **General Statistics** **Lec. 3 Lab. 1 Cr. 3**
(Also offered as MATH 2011 and STAT 2011.) Prerequisite: MATH 1021 or above, or consent of instructor. Machine computation and elementary theory relating to basic statistical techniques; normal distribution, descriptive statistics, statistical inference, product moment correlation, simple rank order correlation, and simple analysis of variance.
- 2040** **Social Psychology** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: three hours of psychology or sociology. Survey of cultural forces as they affect attitudes, social learning, perception, and the communication of the individual and the group.
- 2060** ♦ **Educational Psychology** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: ENGL 1001. Principles of learning, motivation, development, and evaluation as related to the educative process.
- 2070** ♦ **Developmental Psychology** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: ENGL 1001; and PSYC 2000 or 2060, or consent of instructor. A life span survey of psychological changes (social, emotional, & intellectual) in development from conception to death.
- 2076** ♦ **Child Psychology** **Lec. 3 Lab. 0 Cr. 3**
(Also offered as ECED 2076) Prerequisite: PSYC 2000 or 2060 or consent of the instructor. Study of the physical, social, intellectual, and emotional development of the child.
- 2078** **Adolescent Psychology** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: PSYC 2000 or 2060 or consent of the instructor. Study of the physical, social, intellectual, and emotional behaviors of the adolescent.
- 3017** **Elementary Experimental Psychology** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: PSYC 2000 and 2011. Lecture and laboratory beginning course in applying the scientific method to the problems of psychology.
- 3032** **Principles and Theories of Learning** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: PSYC 2000. A survey of current theories of learning.
- 3081** ♦ **Personality Psychology** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: PSYC 2000. A study of major theories of personality.
- 3140** **Advanced Social Psychology** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: PSYC 2040 or consent of instructor. A study of the nature of social behavior, social stimulation, and response; a psychological analysis of society and social institutions.
- 4001** **Ethical, Legal, and Professional Issues in Psychology** **Lec. 3 Lab. 0 Cr. 3**
A review of the ethical standards and legal mandates governing the research and professional practice of psychology.
- 4008** **History of Modern Psychology** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: Six hours of psychology. A historical survey of psychology with special reference to schools of psychology.
- 4020** **Introduction to Psychometrics** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: PSYC 2011. Test construction, standardization, validation, intelligence, clerical, mechanical, and spatial aptitude tests; interests and personality tests; test batteries.
- 4034** **Physiological Psychology** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: PSYC 2000. An intensive study of the functioning of the nervous system with respect to sensation, perception, learning, and motivation.
- 4082** **Introduction to Abnormal Psychology** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite PSYC 3081 or consent of instructor. A study of the nature and development of abnormal personality and behavior.

- 4900 Senior Seminar in Psychology** **Lec. 3 Lab. 0 Cr. 3**
Prerequisite: Senior standing. A recapitulation of the various theoretical orientations and perspectives in the field of psychology, including current issues in the field.
- Radiologic Technology (RADT)**
- 1000 Introduction to Radiology** **Lec. 1 Lab. 0 Cr. 1**
Introduction to Radiography. A survey of basic principles and practices of radiography with hospital radiology department observation.
- 1001 Introduction to Radiology Technology** **Lec. 2 Lab. 0 Cr. 2**
Course Pre or Corequisites: ENGL 1001, BIOL 1161. An introduction to the principles and practices of radiography in the delivery of health care. Concepts explored include the historical and professional perspectives, trends in health care delivery system, legal and ethical considerations, imaging process, radiographic preparation and examinations, safety principles, communications, and client management techniques.
- 1002 Radiographic Image Production I** **Lec. 2 Lab. 3 Cr. 3**
Course Prerequisites: ENGL 1001, BIOL 1161, RADT 1001. Course Corequisites: BIOL 1162, RADT 1004. A study of radiation concepts and principles including x-ray properties, basic x-ray equipment, principles of x-ray production, x-ray interactions, prime factors of exposure, exposure control systems, and technical factors that influence and control image production quality. The laboratory provides opportunities for demonstrations with phantoms and practice laboratories.
- 1004 Radiographic Practicum I** **Lec. 2 Lab. 12 Cr. 5**
Course Pre or Corequisites: ENGL 1001, BIOL 1161, BIOL 1162; Corequisites: RADT 1001, RADT 1002. Classroom and clinical experiences designed to provide students with fundamental understanding of the radiological examination of the chest, abdomen, upper and lower extremities, and shoulder girdle. Emphasis on operation of equipment, performance of darkroom and office procedures, patient care management, application of radiation protection precautions, and general radiographic process, and evaluation. Skills practice with a phantom in the radiographic laboratories and skills performance in the actual clinical setting are included.
- 1005 Radiographic Practicum II** **Lec. 0 Lab. 16 Cr. 4**
Course Prerequisites: RADT 1001, RADT 1002, RADT 1004, MATH 1021 Course Corequisites: RADT 1006, RADT 1007. Clinical performance of basic skills in radiology with emphasis on preparation of the patient, room, and equipment for fluoroscopic, mobile, surgical, emergency/trauma and general radiographic procedures.
- 1006 Radiographic Image Production II** **Lec. 2 Lab. 3 Cr. 3**
Course Prerequisites: RADT 1002, BIOL 1162, RADT 1004, ENGL 1002, MATH 1021. Course Corequisites: RADT 1005, RADT 1007. The comprehensive study of technical factors and variables that affect the photographic and geometric quality are analyzed. The focus is on methods of processing with related practical application; design and construction requirements for development, processing, and veiling. Practice in the radiographic laboratories provides competency building in sensitometric measurements and processor monitoring.
- 1007 Radiographic Procedures I** **Lec. 2 Lab. 3 Cr. 3**
Course Prerequisites: RADT 1002, BIOL 1162, RADT 1004, ENGL 1002, MATH 1021. Course Corequisites: RADT 1005, RADT 1006. A study of radiographic procedures with emphasis on quality (technical and positional accuracy) radiography of the head, thorax, pelvic girdle, and vertebral column. Provides a foundation in performance of mobile, surgical and trauma radiography, fluoroscopic and contrast media examinations. The skills practice phantom in the radiographic laboratories.
- 1008 Radiobiology** **Lec. 2 Lab. 0 Cr. 2**
Course Prerequisites: RADT 1005, RADT 1006, RADT 1007, PSYC 2000, STAT 2011. Course Corequisites: Phys 1001, RADT 1010. An in-depth study of radiation protection safety practices and Radiobiology, including radiologic measurements, quantities, units, detection devices, radiation effects, dose limits and calculations, protective measures, equipment and shielding, federal and state regulations.
- 1010 Radiographic Practicum III** **Lec. 1 Lab. 12 Cr. 4**
Course Prerequisites: RADT 1005, RADT 1006, RADT 1007. Pre or Corequisites: PSYC 2000, STAT 2011. Corequisites: RADT 1008. This course is designed to provide for the continued development and application of clinical competencies with emphasis on patient care and

performance of general radiographic procedures, emergency/trauma, mobile, surgical, fluoroscopic and contrast media procedures, and corresponding film evaluation. Skills practice occurs with phantom in the radiographic laboratories and performance in actual clinical setting.

2002 Radiographic Special Imaging

Technology Lec. 3 Lab. 0 Cr. 3

Course Prerequisites: Phys 1001, RADT 1008, RADT 1010. Course Corequisites: RADT 2004, RADT 2007. A study of specialized imaging techniques and utilization of therapeutic equipment with emphasis on accessory devices, x-ray circuitry and rectification, image intensifies fluoroscopy, body section radiography, macro radiography, mammography, digital imaging, thermography.

2004 Radiographic

Procedures II Lec. 2 Lab. 3 Cr. 3

Course Prerequisites: Phys 1001, RADT 1008, RADT 1010. Course Corequisites: RADT 2002, RADT 2007. An in-depth study of advanced imaging and radiological procedures involving of all body systems; basic pharmacology, venipuncture, advanced contrast media emanations, pelvimetry, mammography, computed tomography, scanograms, pediatric radiography, and foreign body localization. Laboratory sessions provide for use of computerized programs and model reviews.

2007 Radiographic

Practicum IV Lec. 0 Lab. 20 Cr. 5

Course Prerequisites: RADT 1008, RADT 1010. Course Corequisites: RADT 2002, RADT 2004. The laboratory and clinical practice in the application of general radiographic procedures, including emergency/trauma, mobile surgical, fluoroscopic procedures, contrast media, angiography, cardiac catheterization, CT and MRT. Includes skills practice with phantom in the radiographic laboratories, and skills performance in the actual clinical setting with emphasis on special imaging modalities.

2010 Radiographic Pathology Lec. 2 Lab. 0 Cr. 2

Course Prerequisites: RADT 2002, RADT 2004, RADT 2007, PSYC 2070. Course Corequisites: RADT 2012, RADT 2032. A study of disease processes and their radiographic manifestations. Emphasis on radiographic anatomy, physiology, pathology, and evaluation of radiographic quality with related exposure considerations.

2012 Radiographic

Practicum V Lec. 0 Lab. 24 Cr. 6

Course Prerequisites: RADT 2002, RADT 2004, RADT 2007. Course Corequisites: RADT 2010, RADT 2032. The clinical practice in the integration

and application of all clinical skills including production of diagnostic radiographs, patient management, and performance of radiographic procedures with proficiency, and use independent judgement. Students are provided opportunities to demonstrate radiation safety practices, effective communication, performance of radiological procedures utilizing appropriate supplies and accessory devices. Rotations will be provided in radiation oncology, nuclear medicine and ultrasound.

2032 Radiographic Seminar Lec. 2 Lab. 0 Cr. 2

Course Prerequisites: PSYC 2070, RADT 2002, RADT 2004, RADT 2007. Course Corequisites: RADT 2010, RADT 2012. A course study which permits selected study of topics related to the professional practice of radiologic technology and review materials in preparation for the American Registry of Radiological Technologists examination.

Reading (REA)

0003 Developmental

Reading I

Lec. 3 Lab. 0 Cr. 3

For students whose standardized test (Nelson-Denny Reading) indicates a grade equivalent of 8.9 or below. Not for degree credit. Intense work with functional reading skills including word recognition, comprehension, structural analysis, phonetic analysis. PASS/No Credit.

0005 Developmental

Reading II

Lec. 3 Lab. 0 Cr. 3

Prerequisite Developmental Reading I or placement on standardized reading test (Nelson-Denny) of grade equivalent of at least 9.0 but less than 12.0. Not for degree credit. Intensive work with comprehension and vocabulary. PASS/No Credit.

Religion (REL)

4227 Contemporary Christian Thought

Lec. 3 Lab. 0 Cr. 3

Major Theologians and theological movements of the 20th century including neo-orthodox theology as well as liberation, Latin American, African American, and feminist theologies.

4236 Studies in Literature and

Religion

Lec. 3 Lab. 0 Cr. 3

May be taken for a maximum of 6 hours of credit when topics vary. Analysis of literature from religious perspectives. Representative topics include religious thought and contemporary literature, American Literature, or Southern

Literature; Major novels and religious thought; or specific authors such as Flannery O'Connor, John Updike or Toni Morrison.

Social Work (SOWK)

- 2000 Introduction to Social Work** **Lec. 3 Lab. 0 Cr. 3**
An introduction to and overview of the profession of social work. An examination of the value, knowledge, and skill bases of social work from a generalist perspective. Overview of general systems theory. Human diversity in social work practice.
- 2090 Social Work as a Social Institution** **Lec. 3 Lab. 0 Cr. 3**
This course will describe the historical background of approaches to social welfare in Europe and the United States. The student will be introduced to the more important contemporary programs in the United States and the major policy issues of concern to the profession of social work from a historical perspective.

Sociology (SOCL)

- 2001 ♦ Introductory Sociology** **Lec. 3 Lab. 0 Cr. 3**
A survey of major subject areas and principles of sociology.
- 2091 Selected Topics in Sociology** **Lec. 3 Lab. 0 Cr. 3**
May be taken for credit twice if topics vary.
- 2092 Dynamics of Family Violence** **Lec. 3 Lab. 0 Cr. 3**
The study of family violence including child, spouse and elderly abuse and their impact on society.
- 2093 Aging in American Society** **Lec. 3 Lab. 0 Cr. 3**
A survey of social and cultural aspects of aging with particular emphasis upon American Society and the problems encountered by older persons.
- 2094 Deviance** **Lec. 3 Lab. 0 Cr. 3**
An introduction of the study of deviance in American Society, its implications, functions, and dysfunctions.
- 2501 ♦ Current Social Problems** **Lec. 3 Lab. 0 Cr. 3**
Contemporary social problems and their consequences for mankind, with special emphasis on the American society.

- 2505 Marriage and Family Relationships** **Lec. 3 Lab. 0 Cr. 3**
Current issues and trends in marriage and family relationships. (May not count toward satisfying the 31-hour requirement for concentration in sociology at LSU-Baton Rouge).
- 3501 Sociology of Deviance** **Lec. 3 Lab. 0 Cr. 3**
Sociological theories of deviant behavior; supporting research on mental illness, crime, sexual deviance, drug abuse, and suicide.
- 3605 Collective Behavior** **Lec. 3 Lab. 0 Cr. 3**
Sociological analysis of noninstitutionalized group behaviors: crowds, public, panics, fads, hostile outbursts and social movements.
- 4401 The Family** **Lec. 3 Lab. 0 Cr. 3**
The family as a social institution.
- 4461 Criminology** **Lec. 3 Lab. 0 Cr. 3**
Crime, the criminal justice system and penology.
- 4531 The Aged in Contemporary Society** **Lec. 3 Lab. 0 Cr. 3**
Social, demographic, psychological, cultural, and health factors related to the aging process in contemporary society.

Spanish (SPAN)

See note on foreign language placement and credit policy above the listings of French courses.

- 1000 Survival Spanish for Criminal Justice** **Lec. 1 Lab. 0 Cr. 1**
Basic one-way communication of phrases, commands and questions utilized in law enforcement.
- 1001 ♦ Elementary Spanish I** **Lec. 4 Lab. 0 Cr. 4**
Basic lexicon and structures of Spanish. Emphasis on communicative language use.
- 1002 ♦ Elementary Spanish II** **Lec. 4 Lab. 0 Cr. 4**
Prerequisite: completion/credit of SPAN 1001. Basic lexicon and structures of Spanish. Emphasis on communicative language use.
- 1030T Spanish Study Tour** **Lec. 1 Lab. 0 Cr. 1**
Travel to selected sites of Spanish cultural and historical significance; pre-tour lectures, activities, discussions, assigned readings and post-tour essay. This course may be used as general elective credit only and may be repeated for up to two hours credit when sites and topics change. Students may not exceed two hours credit in any combination of 1030T Travel Courses. This course may not be taken concurrently with SPAN 2030T.

- 2030T Spanish Study Tour Lec. 3 Lab. 0 Cr. 3**
Travel to selected sites of Spanish cultural and historical significance; pre-tour lectures, activities, discussions, assigned readings and post-tour essay. This course may be used as general elective credit only and may be repeated for up to six hours credit when sites and topics change. This course may not be taken concurrently with SPAN 1030T.
- 2101 ♦ Intermediate Spanish I Lec. 3 Lab. 0 Cr. 3**
Prerequisite: completion/credit of SPAN 1002. Continuation of Elementary Spanish; structures and lexicon of Spanish. Additional emphasis on reading and writing. Supplementary work in language laboratory.
- 2102 ♦ Intermediate Spanish II Lec. 3 Lab. 0 Cr. 3**
Prerequisite: completion/credit of SPAN 2101. Continuation of Elementary Spanish; structures and lexicon of Spanish. Additional emphasis on reading and writing. Supplementary work in language laboratory.
- 2155 ♦ Readings in Spanish Literature Lec. 3 Lab. 0 Cr. 3**
Prerequisite: completion/credit of SPAN 2102. Interpretative reading of Spanish texts; development of competency in written Spanish.
- Speech (SPCH)**
- 1050 Voice and Diction Lec. 3 Lab. 0 Cr. 3**
A study of the speaking process, emphasizing articulation and pronunciation through application of basic phonetics.
- 1061 ♦ Speech Fundamentals Lec. 3 Lab. 0 Cr. 3**
An introduction to the basic concepts and techniques of intrapersonal, interpersonal, and public communication, with opportunities for communication skills acquisition and practice.
- 2010 ♦ Interpersonal Communication Lec. 3 Lab. 0 Cr. 3**
Theories and research in dyadic (one-to-one) communication, including the roles of self-concept and perception in communication; listening; verbal and nonverbal communication; and relationship development and maintenance. All concepts will be studied from various cultural and co-cultural perspectives.

Theory and practice of the oral communication of literature, including prose, poetry, and drama. Emphasis on conveying to an audience intellectual, emotional, and aesthetic content of literature through the voice and body.
- 2060 ♦ Public Speaking Lec. 3 Lab. 0 Cr. 3**
(Not open to students who have credit for SPCH 1061.) Exploration of public communication concepts and techniques, including audience analysis, topic selection and research, organization of materials, and delivery skills. Creation and presentation of speeches and analysis of other speakers.
- 2061 Speech Communication for Business and the Professions Lec. 3 Lab. 0 Cr. 3**
Prerequisite: SPCH 1061. Continued exploration of interpersonal and public communication concepts and techniques applicable to business and professional situations, including organizational communication theory, interviewing, proposal presentations, group decision making, parliamentary procedure, and intercultural communication.
- 2063 ♦ Argumentation and Debate Lec. 3 Lab. 0 Cr. 3**
Prerequisite: SPCH 1061 or 2060. A study of the principles of argumentation and debate, including analysis, collection and use of evidence, reasoning, and refutation; class debating in vital questions.
- 2145 Readers Theatre Lec. 3 Lab. 0 Cr. 3**
(Also offered as THTR 2145) Oral performance of literature by a group: adaptation of materials, presentation skills, and staging techniques. (Credit will not be given for both SPCH 2145 and THTR 2145)
- 2200 Forensic Practicum Lec. 0 Lab. 1 Cr. 1**
Prerequisites: Consent of instructor and membership on the LSUA Speech Team. Preparation and presentation of speeches and/or interpretative materials for intercollegiate competition. May be taken for a maximum of 3 hours credit.
- 3020 Listening Lec. 3 Lab. 0 Cr. 3**
This course is designed to expose students to research in the field of listening. Listening will be studied from both the sender and the receiver's perspective.
- 3040 Performance Composition Lec. 3 Lab. 0 Cr. 3**
Prerequisite: SPCH 2040. Study of rhetorical and aesthetic elements of solo and group performance, including performances of literature, cultural performances, and experimental performance.

- 3060 Advanced Public Speaking Lec. 3 Lab. 0 Cr. 3**
 Prerequisite: SPCH 1061 or SPCH 2060. This course is designed to refine the student's public speaking skills. Advanced preparation in audience analysis, style, and vocal and physical delivery will be addressed.
- 3900 Selected Topics in Speech Lec. 3 Lab. 0 Cr. 3**
 Prerequisite: Consent of instructor. May be taken for a maximum of six (6) hours when topics vary.
- 4104 Communication in Organizations Lec. 3 Lab. 0 Cr. 3**
 Speech Communication theory and practice in organizations; research used to identify and solve communication problems; analyses of organizational communication.
- 4114 Contemporary Theories of Communication Lec. 3 Lab. 0 Cr. 3**
 Current methods and theories of human communication; research literature; behavioral antecedents and consequences of messages and their variations; how messages interact with communication to produce behavioral outcomes.
- 4119 Nonverbal Communication Lec. 3 Lab. 0 Cr. 3**
 Prerequisite: SPCH 2010. Nonverbal message systems such as kinesics and proxemics; relationship between verbal and nonverbal communication.
- 4160 Persuasive Communication Lec. 3 Lab. 0 Cr. 3**
 Prerequisite: SPCH 1061, 2010, 2063, or equivalent. Nature of persuasive speaking.
- 4999 Communication Seminar Lec. 3 Lab. 0 Cr. 3**
 The purpose of this course is to integrate knowledge from across the curriculum. Trends that connect the courses will be discussed. The student will gain insight into communication on every level of society

Statistics (STAT)

- 2011 ♦ General Statistics Lec. 3 Lab. 1 Cr. 3**
 (Also offered as MATH 2011 or PSYC 2011)
 Prerequisite: MATH 1021 or above, or consent of instructor. Machine computation and elementary theory relating to basic statistical techniques; normal distribution, descriptive statistics, statistical inference, product moment correlation, simple rank order correlation, and simple analysis of variance.

Study Skills (STSK)

- 0002 College Study Skills Lec. 2 Lab. 0 Cr. 2**
 Provides students with information, methods and skills needed for satisfactory performance in college course work. Designed to include specific study techniques such as organization and time management, concentration, note taking, comprehension and retention of learning, preparing for and taking examinations. Credit for this course may not be used to fulfill degree requirements. PASS/NO CREDIT.
- 0006 College Study Skills Lec. 3 Lab. 0 Cr. 3**
 Provides students with information, methods and skills needed for satisfactory performance in college course work. Designed to include specific study techniques such as time management, concentration, note taking, comprehension and retention of learning, use of new technology and preparing for and taking examinations. Will also include career development activities. Credit for this course may not be used to fulfill degree requirements. PASS/NO CREDIT.

Theatre (THTR)

- 1020 ♦ Introduction to Theatre Lec. 3 Lab. 0 Cr. 3**
 A survey of the history and arts of the theatre; attendance of local theatrical productions usually required.
- 1025 Acting Lec. 3 Lab. 0 Cr. 3**
 Exploration through theatre exercises, movement training, monologues, and scene work of the actor's problems of intention, physical and vocal expression of emotion, and concentration.
- 1029 Movement for the Actor Lec. 2 Lab. 2 Cr. 3**
 Beginning stage movement for the actor, including flexibility, realignment, spatial awareness, gesture and body composition, and physical characterization.
- 1030T Theatre Study Tour (Travel Course) Cr. 1**
 Travel to selected sites of theatrical interest; pre-tour activities and post-tour essay. This course may be used as general elective credit only and may be repeated for up to two hours credit when sites and productions change. Students may not exceed two hours credit in any combination of 1030T travel courses. This course may not be taken concurrently with THTR 2030T.
