

CALCULATING YOUR GPA

To assist you in understanding how to calculate your GPA, divide your total quality points by the number of hours attempted at LSUA

Grade	4-hr class	3-hr class	2-hr class	1-hr class
A	16.0	12.0	8.0	4.0
B	12.0	9.0	6.0	3.0
C	8.0	6.0	4.0	2.0
D	4.0	3.0	2.0	1.0

Example:

Classes	Hours Attempted	Grade Earned	Quality Points Earned
BIOL 1161	4	B	12.00
MATH 1021	3	A	12.00
CMIS 150	3	A	12.00
ENGL 1002	3	C	6.00
HIST 3071	3	B	9.00
	= 16 hrs attempted		= 51 quality points

GPA = (Quality Points Earned) / (Total Hours Attempted)

$$= 51 / 16 = \mathbf{3.066}$$

For subsequent semesters, add new hours attempted to previous hours attempted; add new quality points to previous quality points. Then divide total quality points by total hours attempted to determine your Cumulative GPA.
